**SPEECH OF PRESIDENT RODRIGO ROA DUTERTE DURING THE OPENING CEREMONY OF  
THE NATIONAL SCIENCE AND TECHNOLOGY WEEK (NSTW) CELEBRATION IN MINDANAO**

[Delivered at SMX Convention Center, Lanang, Davao City | 06 July 2018]

Kindly sit down. Thank you for the courtesy.

I must apologize for the delay. I was here at 6 o'clock. Unfortunately, I was detained by three, four Justices of the Court of Appeals and puro babae kasi. *[laughter]* And they were just talking and talking and talking and I was --- I kept on looking at my watch. I know that I was making other people uncomfortable for waiting.

But paglabas ko, when I was about to come here, I was also intercepted by Secretary Dominguez and Transportation Secretary Tugade and the DILG and others to tell me about problems of our country which needed to be decided tonight.

So we had --- had too a little bit of a discussion. And so I --- another delay. And if I talk about delay, I will delay my talk *[laughter]* for a delayed almost two hours.

Science and Technology Secretary Fortunato de la Peña; Secretary Abul Khayr Alonto of the Mindanao Development Authority; fellow workers in government; other invited guests; mga kababayan.

I have a three-page speech. I would make a choice for you. I talk extemporaneously and maybe it would go an hour or I'd read it and about three minutes, we're gone. Which do you prefer? *[laughter]* Extemporaneous?

I tend to talk a lot about things. Of course --- by the way, I believe in one supreme God. *[applause]*

I never said I do not believe in God. I'm not a prognostic and I'm not an atheist. I just happen to be a human being believing in that there's a universal mind somewhere which controls the universe.

Why is there so many agony and pain and injustice and all? We'll never really know until maybe God chooses the time for us to know the answer.

Pero ito kasing ibang relihiyon. Kung talagang tumutulong ka sa tao, bakit humingi ka ng pera sa tao? And if there is anyone of you there, the noisy ones, who would say that you have been to heaven, talked to God, saw him personally, and that He exists, the God that is yours, and if He does is true, I will step down the presidency tonight.

Basta may magsabi sa inyo na nakita ninyo ang Diyos at may Diyos at kung saan at bumalik kayo dito nagkwento kayo. Kung nangbobola kita --- kung nagbobola ka...

You know, I said God is universal mind and if you think of what ails the world today... Kaya nga sabi ko, kayong mga ugok na --- kung tumutulong kayo sa tao, bakit kami ang nagbibigay ng pera sa inyo?

And if *[unclear]* maintain the fallacies and the luxurious things that the rest of humanity do not have. I'm wondering kasi two minutes extemporaneous. I'll talk about the next --- the next hour would be for the technology. *[laughter]* This is for your basic catechism. *[laughter]*

Kasi there's the crazy notion... Makinig nga kayo sa mga p\*\*\*\*\* j\*\* kayo, I\*\*\*\*\*. You know, we are told that we are all --- at least for the others, Islam does not believe in this.

Kung before you can get married and the wife and their children, you have to go and receive the Sacrament of Marriage. And when we are born, we are considered to have acquired not AIDS but we have acquired the original sin. And that because everybody is born with an original sin, you have to be baptized.

But when you were in the process of being manufactured, there was already the Sacrament of Marriage. At bakit ako pinanganak na may original sin? Na wala man akong pakialam sa nanay pati tatay ko noon. Kanila 'yun eh. Basta ako pinanganak na lang, may original sin. Kaya pag hindi ka nabeng --- barbarian ka.

And to think that the original sin was committed by Adam and Eve. You know God created Adam. And Adam was --- but before that God created the paradise. Obviously it's a planet earth because the only planet that's inhabited.

Then God said paradise. Eh napakalungkot. He created Adam, the man. Nandoon na si Adam, natutulog. Sabi nitong Diyos ng --- itong mga ugok. Kawawa naman si Adam, so bigyan natin ng babae, si Eve. Doon na nagka-\*\*\*\*\* ang buhay.

Kasi ang sabi nila sa catechism, tinawagan ng Diyos nila si Adam. "Pssst," tinawagan 'yung snake.

"Pssst." Iyong snake naman pumunta doon and God picked up one golden apple made in China exported. *[laughter]*

Sabi niya, "You bring this apple to Eve. Tempt her to eat it and thereafter try to tempt also Adam to eat it." Di pumunta nga 'yung ahas. Maybe keep on rubbing the apple of ecstasy, kinain ni Eve. Tapos kinain ni Adam. And so malice was born. And they were banished away from paradise for having committed I do not know.

And then lahat ng generations pati ngayon have acquired the original sin, even if you are just a seminal thing inside the balls of your father. Tapos pagkasal mo, the holy sacrament of marriage. And yet when you begin to pump, to produce an heir, not air na hinga, heir na tao, an heir. 'Pag nabuo, there is the original sin.

So where is the logic of God there? You create a perfect then you spoil it through the snake and an apple. And you give us the sin that we never even agreed to commit and that is the original sin. Iyon lang naman.

Kaya sabi ko, kung magdala kayo dito ng one, only one, kailangan ko isa lang. Sabihin niya, "Mayor, utos kasi ng mga ugok diyan sa simbahan na pumunta ako ng langit kausapin ko ang Diyos. Meron talaga po. Ito may picture kami, nagdala ako ng selfie."

You do that today, one single witness that there is a guy, a human being, who's able to talk and to see God. Of the so many billions na dumaan dito, I just need one. And if there is one, ladies and gentlemen, I will announce my resignation immediately. Then para magklaro na tayo.

So I do not believe in God? Yes of course, there's God. There are billions and millions and billions and trillions of stars. If there is nobody that has really the technology in his mind, we will be just be colliding with each other most of the time and nothing would be left for humans even to exist.

And that is my case because that is the issue of the day. So that you should know whereof your speaker comes from.

Now, huwag na natin pag-usapan 'yung technology. Eh mas marunong kayo sa akin. *[laughter]* You know, ayaw ko ng technology kasi it's a complicated thing. I have a very simple mind. My IQ is just

average. Almost average. I am not a brilliant kagaya nila Dominguez, my classmate since childhood 'yan. Valedictorian hanggang nag-graduate kami.

Ito si Tugade, sa law school, he was our valedictorian. Tsaka bilyonaryo 'yan, maniwala kayo. Mapera 'yan kaya huwag kayo maniwala 'yang corruption, corruption, transportation. Tugade can buy them out if he wants to, he has the money. Mayaman talaga 'yan. Noon pa. Estudyante pa kami sa law school de kotse na 'yan na maganda.

Because bright boy sa Delgado shipping eh. Then he started his own forwarding. Talagang bright 'yan kaya valedictorian. Si Boy siguro. Ikaw Boy valedictorian ka? *[laughter]* Salutatorian? Hindi rin? Ha? Ah, salutatorian ka.

Sila lahat halos sa Cabinet. Lorenzana was the valedictorian of his class sa PMA, I think. Lahat 'yan sila, puro bright. Ako, ako 'yung --- kasi 'yung anak kong babae, sabi niya, "Pa," Bisaya eh. "Ngano man na si Briones?" Hindi ba kay Briones 'yun? Ke 'yung father 'yung sa La Salle? Lyon man ang...

"Bakit 'yan si Briones giinat-inat man niya 'yung number of years namin? Bakit hindi kagaya sa inyo? Bakit ngayon mag-12 years kami? Kahaba man masyado 'yan. Sabihin mo sa --- ibalik, ibalik dito sa original mas gwapo 'to."

Sinabi ko, "Nak, madali na lang 'yan. Ang problema paano ko harapin si Briones, baka isampal niya 'yung record ko. Kasi ako ang original K-12. Diyan nga na-pattern 'yan eh." *[laughter and applause]*

It took me seven years to finish high school. *[laughter]*

'Yan sila Dominguez, 'yung iba, abogado na. Ako, p\*\*\*\*\* i\*\*, sige man ako ka-bagsak kasi. Kay kung magsabi na "maglayas tayo, pumunta tayo ng Bicol." "Sige." Layas. "Punta tayong Zamboanga." "Sige." Kaya putol-putol, installment 'yung high school ko.

Alam mo kung saan ako nag-graduate? Doon sa Digos. Munisipyo pa 'yan noon. Municipality of Digos 'yan. It was run by the brothers of the Sacred Heart. Mga Canadians from Quebec. From Ateneo, doon ako.

Kaya I am saying na I would not dwell on itong arithmetic, technology and mathematics. Arithmetic pa rin.

Kasi sabi ko... Alam mo itong tao, ugok talaga. Science, technology. It's innovation. You innovate now or you perish. If you --- That's not invention actually, it's called --- the proper term now is "innovation."

If we do not innovate in our lives, in all forms, we would have a hard time this next generation. Tatal simple lang naman ang atin eh. We do not go for complicated things.

For example, like military hardwares. We are not a powerful country. We are not ready to go to war. But for the things that can help our people day-to-day, make lives more comfortable for them. 'Yan lang itong --- itong ginagawa natin to help the exports.

So dadaan sila ng... because strikto ngayon ang ano then we have opened the market 'yung sa Russia tayo.

We could have done more but for the reason that it was the day that the Marawi siege broke out.

We have lined up so many things for them but we intended to open the market because masyadong masikip na dito and at that time, China was really making it hard for us to export anything.

Tapos may mga naglagay-lagay pa doon 'yung mga karayom --- karayom ba 'yan sa Tagalog? 'Yung mga ginagawa niyong products natin and there was sabotage but we are not ready to blame anybody.

So 'yung export natin talagang humina but... So I had to go there, I had to talk. So I said, "We want a new kind of relationship." And we did. Now maski ano.

China now is telling us: "send us all." Lahat ng mga export niyo, sige palada niyo sa amin. That is how dramatically our relationship with China has improved.

And of course, 'yung Binondo, 'yung bridge na ibigay nila. It's in my schedule for the week. I forgot what day it is. I will break the grounds. Mag-donate sila ng dalawang tulay. So dalawa, medyo it would make mobility easier.

Alam mo, kung sabi ko sa inyo bakit --- kalimutan na muna ninyo 'yang technology. *[laughter]* Kasi hindi ko talaga malaman 'yung --- mahilo ako. *[laughter]*

Kasi ang mga g\*\*\* in the past, itong arithmetic pati alphabet pinagsabay. *[laughter]* Cosign minus 2b equals. *[laughter]* Why do we have to? Bakit mag --- Eh 'yung arithmetic 1, 2, 3, 4. 'Yung ABC. Ilain mo. *[laughter]* Bakit mo pag-sagol-sagolin 'yan? *[laughter]* Susmaryosep. That is where the problem comes from. You mix it up.

x minus y equals 2 square ganun. Ba, sagolin mo ang number ng math, magkanda-l\*\*\*\*\*-l\*\*\*\*\* ka talaga. At least sa square.

Well, was pretty good in Physics talaga, kahit Geometry *[crowd says "Wow"]* Ah oo but *[applause]* Nagsige pakpak wa pa gani. *[laughter]*

Kaya pagdating diyan sa, well, Trigonometry, hindi na kailangan. I'm saying ewan ko Boy ha --- but you know. Well of course, Trigo helps you analyze. Okay pa. Algebra pero 'yung mga Calculus ganun...

Ikaw, nagamit mo pa 'yan? Wala talaga *[laughter]* --- anak ng p\*\*\* *[laughter]*

Well, I took up flying. Pero 'yung computation sa gasoline pati three, three --- ninety degrees. Hindi mo na kailangan mag-calculate ka doon sa --- ibangga ka sa bukid ng Calculus. *[laughter]* Hindi mo kailangan talaga. Totoo lang.

Well, kagaya ng Spanish. Susmaryosep. Ang nalaman ko lang sa Spanish, q\*\* s\* j\*\*\*. *[laughter]*

Kaya kung may taga-Ateneo dito na ka-batch ko, ewan ko, puro mga bata pa kayo.

Ilang beses talaga ako nahuli nangopya diyan sa Español na 'yan. Kaya galit ako sa Español. Umalis na dito, nag-iwan pa ng salita na... *[laughter]* You know when you are... Totoo. Anong klase. Susmaryosep.

I go now to the real meat of the matter. Unless we can really cut down on graft and corruption, this country will never progress within the next 30 years.

If we are trying to catch up with Malaysia or Singapore, give or take about 70 years. The topography, the... lahat, the geopolitics.

Just by the window in the Pacific. Life really is tailored-fit for the hard struggle sa atin and unless we improve on the technology to help our people and cut down --- maski saan dito. That's why I'm ready to now to make a policy statement.

Wala akong nakitang p\*\*\*\*\* i\*\*\*\*\* daan dito sa Pilipinas na natapos on time na hindi produced ng graft and corruption. Q\*\* s\* j\*\*\* ang...

Every program of the government ends up in an investigation. Kita mo 'yung [health?] Beautiful in design, pagdating doon sa inflation, p\*\* --- Ano ba itong Pilipinas? Gusto kong patayin 'tong mga 'to.

I have fired so many. Ako, marami akong sayop. Bisaya eh. Palpak. Sins, ah marami 'yan. Faults, plenty. Pero sabihin ko sa inyo, money, never an issue.

Kaya sinasabi ko, I'm exacting now something of like this. 'Yang project mo pagka pumalpak, I will hold the Secretary responsible.

Pag may highway diyan na palpak, the city engineer at itong project engineer or whatever, if there is delay or slippage, they call it, and it is about 20 percent *[unclear]*, you are out. I will cancel the contract pati --- lahat gusto ko Swiss challenge na lang.

Swiss challenge, you produce the bridge and I will pay you. If you do not publish it in accordance with the specs, as my specifications, I will not pay you.

Kasi lahat ng highway acquisition or easements, to widen the shoulders of the road or to make it a full-length ends up in corruption. Lahat ng bagay. Kung magtingin ako sa TV, kung lahat itong p\*\* --- walang mangyari.

Sabi ko, if they do not cut on corruption, we will never, never improve.

Ako gusto ko but somehow sa baba meron talaga 'yang kalokohan. How to control until the money is spent almost sa proyekto?

At saka itong --- well, it helps but it does not. At the end of the day, 'yang lowest bid is a very disaster theory of government --- 100 million. Itong mga p\*\*\* na walang capital, walang tao, lahat. Laway lang.

Sabi ni --- bagsak. "Ilan? O sige, 80 ako dito." So lowest bid. You build this infrastructure, it costs only government 80, 70.

Pag nanalo na 'yan siya, ibigay niya doon sa governor, ibigay niya doon sa mayor, ibigay niya doon sa presidente, 'yung mga tao na --- pagkatapos ilan ang iniwan sa pera?

So from 100 million, magiging 60 na lang 'yan. So pagtrabaho niya, wala siyang material, ang credit extensions niya wala. Ang credit line walang tao nagtatrabaho.

So I would like to call the attention of the secretaries, especially Secretary Villar, that if there is any slippage of any work of any kind by the national government.

If you delay or if I see tomorrow, beginning tomorrow, and you are all invited to see me in Malacañan. If it's an issue of graft and corruption, sinabi ko --- kaya 'yung sa frigate-frigate na kalokohan sa, doon sa Senate. Ayan, pang-ano lang 'yan ni Trillanes sa ano.

Wala talaga siyang makuha. Naging popular tuloy si Bong Go. Senator Go, where are you? *[laughter]* G\*\*\*\*\*. Wala man 'yang kasalanan. Tingnan mo. *[applause]*

Pina-testify sa court. Eh wala, tapos na 'yun eh. Deliver. O ngayon, akala siguro nila na pareho sa kanila ang orientation, pera.

Ayun, tinawag nila sa Congress, binuko sila lahat and he was able to answer point-by-point, naging g\*\*\* sila. O so, sino ang tinamaan? 'Di ang military.

Ito ngayon, lahat ng tao, naghahanap ng President, Senate --- Senator, rather. Senator Go. *[applause]* If you forget him, just remember. "Stop." *[laughter]* Eh Go, --- pag stop, go. O. *[laughter]*

But actually this guy, you know, he happens to be --- ang tatay niya. Pero ito sila is a member of a very big Batangueño clan. Tesoro. 'Yung barong. Tesoro 'yan. Pa-Chinese-Chinese sila because the father is Go.

Pero he belongs to --- they own the largest printing press outside of Manila. Doon sa Davao. Mga pioneers sa Davao, mga Batangueño. Kaya 'yung Batangas, hindi Chinese 'yang binoboto ninyo ah, Batangueño 'yan.

Ang corruption, ang naiinis ako, kasi 'yung dinadaan araw-araw ng tao, hindi inaayos. Marami na lang nahuhulog diyan, marami na lang namatay. It's almost a nonchalant so make it a criminal issue.

Pag nahulog ka diyan, nabunggo ka unlighted, uncovered, ganun, you sue the government. Pagka --- siguradong manalo kayo diyan.

Sue the government and I will sue the supervisor and maybe ask the Secretary, "kindly explain to me kung bakit ganito ang sitwasyon."

Somebody has to... Sabi nila gusto kong ma-Presidente. Ito, itong mga opposition, mga g\*\*\*. They are so engrossed na every time they look at the proposal sa Constitution, "Ah, Duterte will make it longer for him to stay in power."

Tonight, nandiyan naman ang lahat, I will make a proposal. The Constitution now being crafted by --- it's being reviewed by Congress, but the Constitutional Convention Committee of Justice Puno can make this correction and I suggest, and I would like Congress to approve it.

Make my term co-terminus, with the beginning of the draft constitution. Make me stop being President during the transition. In other words, elect a President before you make the transition from unitary to federal. I would be willing to accept the proposal. Galing na sa akin 'yan.

So I've urged --- I urge Congress and 'yung kay Puno ngayon, committee, to make the final changes. Make me President only next year, 2019, and I will accept it. If that will satisfy ladies, Robredo, gusto mo ikaw na, depende, you can have it. You can have it if you want to. 'Yan ang sagot ko sa iyo.

The Senate, nandiyan ka man sa Senate. Convince your colleagues, and to the House of Representatives, 'yung opposition. Sabi niyo gusto akong --- beyond 2022? Of course not. Sorry to disappoint you. Excuse me, hindi ako ganun.

Trabahohin ninyo. Make the changes now. Make me resign or ask me to step down by a Constitutional fiat that there will be an election before we proceed with the adoption of the Constitution.

But bigay... Hanggang ngayon, hanggang 'yan, gusto ko na ipasok ko talaga itong changes. I have done so many changes in our government. But corruption remains to be a problem.

And if there are so many wise girls there, women, and itong mga opposition na mag-rally, of course you can go to rallies. Air your grievance. That is a constitutional guarantee.

Seek redress, shout on the streets. Gusto ko nga magpista kayong lahat. I will declare the next two days as bakasyon time. So that all the people can go there during the SONA address at mag-demonstrate kayo doon.

And I will tell the military and the police, exercise the maximum tolerance, umatras kayo nang umatras, 'wag ninyo silang salubungin, paatras kayo nang paatras.

'Pag wala na kayong atrasan, sige abante na naman kayo. *[laughter]* 'Pag naipit na kayo because your back is on the wall, you are boxed in a corner, maybe you should also try to advance a little.

But as much as possible, I do not want to see any rifle, anything there except your baton and your shield. And you have to --- the sacrifice, duraan ka diyan, pati 'yung mga foreigners sumasabi ng mura sa inyo, hayaan mo sila.

But I'm not asking you to die. Just retreat and retreat, and retreat, hanggang mahulog kayo sa Pasig river. *[laughter]* Umakyat kayo uli at kayo na naman. Kami naman ha? Ganun lang 'yan.

But do not be afraid. 'Yung anti-Duterte, lahat ng pari, bishop. Ah, lahat kayo, sige.

*[Pahiram ug kopya sa...]* Alam mo itong kasing Katoliko. Every time may patayin na pari... 'Yung dalawa.

'Yung namatay na pari, confidential. Pero kung sikretuhin mo, bigyan kita. Mark, Fr. Mark Anthony Ventura was a very kind person, accommodating, independent and a strong character. He was a heavy drinker of beer and alleged to be a womanizer.

Information obtain that he had a child with still unidentified woman in Cagayan.

First motive. Speculation 'to. Political, love triangle. Daughter of blah-blah-blah. Paramour of Major --- PA... Paramour of ex-mayor blank, nandiyan 'yang pangalan. Paramour of unidentified NBI agent.

Wife of OFW. Estranged relationship with her husband. High school classmate of Fr. Mark. Intimate text of Fr. Mark. Ang problema nakuha namin ang text. So nababasa namin 'yung dirty talk nila.

Alleged to be involved with Father... Personal life: Both persons are very close to each other. Besides this, he's known to be a playgirl and she has many paramours.

In a relationship --- Ito 'yung OFW. Kita mo ma --- ang gaganda eh. P\*\*\*, bilib ako, totoo lang. *[laughter]* Kay kung --- ito gusto ko --- ito ang gusto kong ma-barkada. Namatay lang ang buang eh. *[laughter]* Baka pwede exchange-exchange?

In a relationship with Father because of the recovered cellular phone of the victim, which contained intimate exchanges of messages. Babae. P\*\*\*\*\* i\*\* naisahan ako dito.

Wife of rich trader. Ah patay ka talaga. Alleged link to Father because of the certain text message from informant, that he, Father, had a relationship with the wife of trader.

Ito secretary, treasurer of San... Simbahan. She is currently pregnant. Her husband, a schoolteacher. In charge of the money she collected from benefactor. She's very close to the late priest.

Wife of personnel, big-time trader, dalawang gasoline station. Her religion is --- ayaw kong sabihin. Big-time donor of rank.

After a thorough intelligence gathering, this woman is out of the issue of possible woman of Father... She's just a big time benefactor... Eh mataba naman o. Mataba naman 'yan.

Ito. Widow. Townmate of Father, *[unclear]* living in. Usually hitched ride with Fr. Mark every time the victim goes to Tuwaw. Alleged paramour of blank, dismissed PNP member. Alleged to be linked ito. As she *[unclear]* hitch-riding with him back to... Jing is reportedly a playgirl. Tsk.

May isa pa. Ah dalawa. No picture din. Wife of Vice Mayor. Businesswoman, classmate, elementary school. Revived acquaintance when he was assigned as rector of... Alleged to be linked because they both closed about each other's Facebook comment for certain *[unclear]* na hindi na maka *[unclear]* 'Di ako marunong ng Tagalog, wala *[unclear]*. Di sinasampatan..." Ano ba 'tong p\*\*\*\*\* i\*\* kataas nitong word na 'to. *[laughter]* Sana siya pinapatay... Riding-in-tandem."

Last, with no picture. Daughter of rich businessman. Wife of a police. Info obtained from taga-baryo, kagawad --- that she was with Father in 2015 at said barangay and slept thereat.

Second motive: Political. Information obtained during 2016 national and local elections. Fr. Mark Ventura was discreetly --- has discreetly campaigned for congressman blank against former blank.

Gathered reveals that the politician even fired his rifle after he lost the election. Another informant of the source said this 2018 barangay, he was actively campaigning for barangay...

Third motive: Fr. Mark Ventura was very close to Fr. Paul Bersamin, who is reportedly married to a CPP-NPA lead member. Likewise, the CPP-NPA condemned the killing of the priest.

Fourth advocacy: Fr. Ventura was a strong advocate of environmental protection, fought for the stoppage of black sand mining, which eventually ceased operation in 2015. He also advocated the clean and honest election, initiated some peace covenant with the...

So 'yun ang... Pero ang strongest is actually babae.

Analysis: There is a big possibility that the first motive, the love triangle, is the main reason why Fr. Mark Anthony Ventura was liquidated by still unidentified person, because of so many women who were believed to be linked to him.

"These women are wives and daughters and paramours of big-time businessmen, politicians, and even members of the --- who have the capability to tap service of highly organized men. "

"However, the possibility of political motive could not be discounted. As the losing candidate in the last election, also kept employing organized *[unclear]*."

"The CPP-NPA motive is perceived to be out of the disputed issue as even the ranks openly condemned the gruesome death of Fr. Ventura."

"Similarly, the fourth motive is already ruled out wherein they --- when the black sand mining was fully stopped in the region since its all-out campaign of the government to fight the illegal advocacy. And that finally brought to the closure."

"Furthermore, the advocacy of Fr. Ventura was to gain an honest election. It is acceptable to all candidates, parties, and this is also a government-initiated campaign to have a --- honest, orderly..."

Pero... *[scans documents]* Itong isa... Kadtong usa... Nag-binisaya ko.

"Report of the killing of [Geraldine Rapinan?], sir, per [PIC?] Domingo Admo --- PRO 5 regarding of the killing of victim's name --- Geraldine Rapinan?, 28 years old, address: San Jose, Baao, Camarines Sur. Cadaver found at San Pedro, Camarines Sur, Barangay Buenavista at about 6 a.m., 15 June 2018. Cadaver was claimed by relatives on June 16."

"A special investigation team was created led by the DPDO with CIDG criminal investigation and crime lab."

"CCTV Footage under review by IT. Regular case conferences being conducted. Surveillance team tracking now the person of interest."

Other details po, sir, re: affidavit of the cousin of the victim as per COP --- Chief of Police.

"Victim informed her cousin that she will meet the person who will shoulder the expenses of the christening of her child. According to the cousin, referring to the person of interest, Fr. Paul Mark Tirao, secretly claimed by the victim as the father of the victim's child, jealousy that the victim's previous boyfriends causes frequent quarrel between the victim and the person of interest."

So ilabas na natin lahat. Eh ba't pa natin tagu-taguin? Then I will name also the priests na 'yung mga may asawa at saan sila nakatira. Of course, I used government... Because they are reported to be in *[unclear]* Sabi nga noon daw, mag, "Oust Duterte."

Sabi naman ni Sison, I will not last three years. Kay ang sabi ko kay Sison ngayon, "Ayaw ko na makipag-usap sa inyo kasi sabi ninyo three years na lang pala ako dito. So wala na akong time makipag-usap sa inyo. Bahala na kayo diyan."

Alam mo ba ang sabi niya? "Duterte will not last. Until three years." O 'di fine. If that is my destiny, I will accept it. There's no problem with it. Destiny is God. That is what God wants me to be. A civilian after three years, according to Sison, the clairvoyant of the Communist Party of the Philippines.

'Tong Sison na ito, fighting 50 years. We were about to begin the beginning of another 50 years. Tapos hanggang ngayon hindi nga niya makakuha isang barangay, mayabang daw ako. Bakit kaya hindi ako mayabang? I had to protect the...

You know, there are things. In the talks previously --- wala akong pinirmahan na dokumento ever since --- previous Presidents signed. I did not until now. Why? Because kung suma total, it would end up medyo -- - paragraphs, separate documents for this President, another agreement, JASIG for the next President. Ramos, si Gloria, pati si Aquino.

Eh abogado ako. Binabasa ko dahan-dahan 'yan. 'Pag suma total mo 'yan, if their figures i-summate mo, it would end up power-sharing and coalition government. I cannot give it to you. Let's go to war. Let us all go to war.

I cannot give it to you kasi pinag-aralan ko 'yan, 'yung lahat ng previous agreements. Iniisa ko talaga iniintindi what are the implications, what --- where does this thing... Where is the direction?

Ang direction nito, o ito muna, eco omic, enterprises, they have a say there. Tapos isa-isahin mo. I-suma-total mo, p\*\*\*\*\* i\*\* power-sharing pati coalition government lababas.

And if you... I-dahan-dahan nila eh. And they say daw we are declaring a ceasefire. A ceasefire because they met in Bicol. Nalaman namin they had a plenum. So kasi ceasefire, no movement, wala namang pakialam. But they gathered in --- plenum is a convention. Then they had another one in Bukidnon.

Ah sabi ko, pagka-ganun... And sabi nila instead of fighting, they'll just use their energies to oust Duterte. Ah okay lang kung 'yun ang ginusto ng tao. I am ready to be ousted. Pero fight muna tayo.

Si Boy mag-kampanya sa akin. Naglinis na 'yan ng baril. *[laughter]* 'Yung de-bomba niya, sabi ko i-uwi kay palitan mo 'yan, hindi na uso 'yan.

You know, I said I have so many things to fight. I'm fighting an ISIS. I am not the enemy of the Moro. I am a Moro. I cannot kill a Moro. I cannot fight a Moro. I could only talk to a Moro about peace.

Ang problema ko diyan sa ibang factions diyan sa revolution ng Moro, the coun --- the insurgency of the Moro people, pinasok ng ISIS. 'Yun ang problema doon. And the ISIS is an ideology that is really one of destruction and killing, and even...

Look what happened in the Middle East. They are all Arabs. They are all Muslims. Sus. Bata, babae, lahat. Walang patawad. And they have destroyed the city.

So I'm facing a front of the revolution, insurgency of the Moro people. I do not want them, that issue to mix with ISIS. Iba 'yung... I said iba 'yan. If they mix with the Moro, that's not the concern of the Moro people. So ibahin mo 'yan.

So I have [an] insurgency front with the Moro people, I have a ISIS terror group, then I am fighting the NPAs, another front, and the drug war. Ano bang gawin ko? Ano bang gusto?

Human Rights, sabihin nila, "Duterte killed 7,000." 'Yun lang ibandera nila, 7,000. Hindi man sinabi kung sino 'yung --- sino ang pinatay ko. Basta 7,000. Hindi man nila tingnan doon sa ilalim bakit namatay 'yun 7,000. Sino 'yan? O 'yan ang problema. Halos kriminal lahat 'yan. Lumalaban 'yan.

Bakit hindi? Marami na akong pulis pati military na namatay. Almost after 'yung murag (maybe) --- almost about to date, I have lost a policeman or a military mga 700 na. Everyday. At even tonight, there will be a policeman. I'm losing two, three policemen a day. Sigurado ako ngayong oras na ito, merong namatay.

Tapos sabihin ang kina-count nila 'yung sibilyan lang against the government. But how about my policeman? They are also being killed. Eh lumalaban eh. Ayaw maniwala. Kasi itong...

Kaya minumura ko ang p\*\*\*\*\* i\*\*\*\* Europe na 'yan --- European. Because they think that we are fighting saints or that the rights of these criminal to them is more important to the rights of the innocent people.

Ah makita mo. 'Pag naka-droga, akyat ng bahay, rape 'yung nanay na bulag, rape 'yung daughter, 'yung bata na 14 years old na babae, tapos 'yung one-year-old pinakialaman pa. Inice-pick (ice pick) pa sa puso. Bakit kita buhayin? P\*\*\*\*\* i\*\* mo.

'Yung isang babae, rape pud (she was raped too) hindi naman masyadong mayaman. Kumatok 'diba? A bank --- a bank employee. Sige siya katok, hindi man marinig. There was a heavy downpour. So nobody could hear the knocking.

Maya-maya, tinabihan na siya ng dalawang lalaki. She was brought to the next lot there and she was burned and she was...

Tapos itong mga durugista mapatay mo maraming ingay itong mga human Rights pati mga pari. Which... Whose --- whose life by the way is cheap para sa inyo?

Ayaw ninyong mag-libing ng Sabado. Magalit kayo. Maski baho na 'yung patay, ayaw ninyo. Walang libing ng... Eh, tingnan niyo, mamatay kayo ng Sabado, hindi kayo ilibing. Mag-iyak 'yung... "Mayor, mabaho na 'yung patay namin." "O 'di ilibing na natin." "Wala mang pari." Ay p\*\*\*\*\* i\*\* 'yang pari. "Sige maghanap ako." Kunwari... Sabihan ko 'yung pulis, "Maghanap ka maski sino diyan. Sabihin mo pastor 'yan. I-bendita-bendato mo kunwari." Totoo lang.

Alam mo kasi ang simbahan, when you die, you are carcass. Wala ng...

Pa-binyag, maski walang kasalanan, original sin, bayad ka. Pakasal ka, ang produkto mo [unclear] gasto. 'Pag namatay ka, gasto. Anong klaseng simbahan 'yan. Wala'y pahuway sa gasto. Walang pahinga.

Sa kagaganda ng simbahan, mga palasyo. Tingnan mo simbahan. Pwede man itayong... "Sige mag-tindig kayo kay mag-dasal na tayo. Shall we pray?" I always go to Allah.

Ako, I have only one God. Tapos galit pa. Sinabi ko 'yung Last Supper. San Pablo, San Isidro, San... P\*\*\*\*\* j\*\* sino 'yang mga 'yan? May nakakilala ba 'yan? Tapos mag-ihaw ng baboy, lahat 'pag fiesta ni San Isidro.

Mag-luhod-luhod ako doon. P\*\*\*\*\* j\*\* hindi ko nga alam kung sino itong p\*\*\*\*\* j\*\*\*\* 'to, kung ilang asawa nito o ilang galon ng tuba ang maubos nito gabi-gabi. T\*\*\* j\*\*\*\* simbahan na...

Why? Kaya sabi ko, paglabas ko sa eskwela na... I was no longer a... "Bless me father for I have sinned." Tapos hinihipo ka naman. Lahat kami. Lahat kami. Two years ahead, two years below.

Tingnan mo diyan ulit, nandiyan. Father --- we call him Father --- Harry Falvey. Diyan sa --- diyan sa ano, 'yan. Harry Falvey. He was charged pedophilia. They lost the case and the parish had to pay 25 million. Parish priest siya sa L. A. Tingnan mo 'yang ano niya, ang bio data niya. Makikita mo Davao assignment.

Sabagay, kami, Roxas was --- "bless me father for I have sinned." "O, what's your sin, my son?" Sige na 'yan hipo. P\*\*\* magkabuang ka (it would make you frantic). "I... I..." "What?" "I went to the window of the..." "What?" "I went to the window of the neighbor to... To..." "Why?" "Because the... There is a woman very beautiful." "Ah that is bad. 25 Our Fathers."

So that's my story. That is your technology for the evening. *[laughter and applause]*

There would have been no need for me to dwell really on --- lengthily on...

Wala man akong naintindihan diyan basta kita nila ang raket. Inyo na --- iba 'yung negosyo ko. I deal with what ails our country and what I can do to my --- I am just a government worker.

That is why when they address me, they say, "Mayor" --- "President Mayor Rodrigo Duterte." I do not want myself called "President." Na-ko-kornihaan ako.

Mayor because I was 23 years mayor of my city. So madali --- "Mayor" okay lang --- it's nice to hear.

Pero 'di ako nag pa-pa-address ng Presidente. Tawagin mo akong Presidente, hindi kita --- "Mr. President" ganun, hindi kita pansinin. Totoo.

Tapos magsabi na 'yung kasunod ko, "tawagin mo lang "Mayor." Pagsabing mayor, "Ha?" *[laughter]* Huwag "President"... President... j\*\*\*\* mo. Bahala ka 'diyan. *[laughter]*

Kaya hindi ako talaga magpapatawag ng... Tapos hindi daw ako statesman na Presidente kasi 'yung barong fino-fold ko. Dalawa man kami ni Ramos, kay Ramos ko man ito nakuha. *[laughter]*

Tsaka you know... ladies and gentlemen, we have to go but let me just state it very clearly to you here and now.

I never aspired to be a statesman. Ang pagkaalam ko pag file ko ng certificate ko --- nagkamali pa nga eh. 'Yung form ng mayor ang nagamit.

But I remember that I wanted to be a candidate for the presidency. Wala ako sinabing statesman. Wala mang subject na statesman. Paano ako maging statesman? Hindi daw ako dapat ma-\*\*\*\*\*j\*\*. Eh p\*\*\* ka, kung magalit ka, hindi ka mag... Just because maraming tao... *[laughter]* hanggang puputok ka.

Well, that's freedom of expression. You know, the thing that really bugs everybody is --- including me --- I never shifted from being a mayor to a President. 'Yan ang problema ko.

So maski sino ang crowd ko, if I feel like just... you know being a... at tsaka ayaw ko 'yung mag-arte. Basa-basa ng speech --- basahin natin ito. Eh kaawa naman 'yung gumawa nito --- ayan 'o, baka

magalit. *[laughter]* Ginawa kaya ito kaninang madaling araw siguro. Para mapagbigyan naman natin. *[laughter]*

In this administration's priority to provide a comfortable and secure life for the Filipino. Rest assured that you have my full support in empowering individuals *[applause]* and bringing our country towards greater heights.

I trust that you will be with me as we work together in establishing a brighter and better future for all.

Maraming salamat. This I can assure you. *[applause]*

If it's a matter of graft and corruption --- ma-military, ma-pulis, ma-cabinet member, maski 'yung sa presidente --- I even fired the Budget --- 'yung undersecretary ng Budget ko, sinipa ko pa sa mukha.

T\*\*\* i\*\*. Basta you have an access to me, 24 hours, kunin mo lang 'yung number ko kay Bong.

If it is something that ails, that bugs you because it involves graft and corruption or government is not doing what it's supposed to do, just bring it to my attention and I will act on it immediately. Lalo na corruption.

So 'yung roads ninyo na hindi natapos ng isang taon na, abangan mo lang 'yang contractor, siyempre magpunta 'man 'yan paminsan-minsan.

Marami 'man 'yan tubo diyan sa --- magkuha ka isa, ihampas mo sa ulo. Tapos ilibing mo doon sa --- tapos sabihin mo lang, "Mayor, may na bunalan ako doon na ano..." Ako na ang bahala. Ipa-semento na lang kaagad natin *[laughter]* T\*\*\*i\*\*\*\* mga 'yan. G\*\*\* kayo.

Alam mo kasi ang problema diyan, 'yung walang mga pera --- laway lang 'eh. Laway ang bribery. Is the laway... 'di matapos, 'o sige lowest bid. Sige bigyan kita. Kaya ang deterioration, proyekto napuputol. Tignan mo doon sa ano --- mag landing ako --- sabi ko maglanding tayo sa ano, "Sir, maiksi ang airport doon."

Pagbalik ko sabihin ko, "Tignan mo nga 'yung record sa ano..." Airport completed. May terminal pa. Saan ang terminal dito? Wala sir. 'Yung sako diyan na semento, wala ni gahi na lang. *[laughter]*

This has to stop. All of these things has to stop. Extortion. Kaya kayo pag hiningian kayo, huwag kayo mag bayad. P\*\*\*\*\* i\*\* sampalin mo, totoo. I will defend you.

Tawagin --- pag andito ako sa istasyon kay sinampal ko itong register of deeds ditong recommend niyo.

Just like the Americans, we have to be assertive. 'Yung Amerikano kasi, one thing good about them is they're assertive, diba? Sabihin mo, "Bakit ako magbayad sayo p\*\*\*\*\* i\*\* ka. Trabahante ka lang ng gobyerno l\*\*\*\*ka."

Ganunin mo, eh 'di mag-away 'yan, mag-dating ako tapos sabihin ko, "O anong nangyari dito?" Sabihin mo, "'eh 'di hiningian ako." O sige. Kasi kung hindi kayo magtulong wala akong magawa para akong inutil.

Kaya sabi ko, p\*\*\*\*\* i\*\* mag resign na lang ako. Kung wala akong magawa sa bayan ko, ganito, sige lang daldal... anong silbi ko?

O look at Davao? Napunta man kayo ng Davao. May ni-rape doon last week, 'o 'di patay na rin ang nag-rape. 'O diba 'yung ni-rape doon na na-publish na --- 'yung nag-rape nun patay na. 'Di kita mo behave ang taga-Davao.

Rape-rape ka diyan. Kaya nga sabi ko, hindi ako sabihin na pinapatay ko 'yung masama. Sinasabi ko lang, ang taga-Davao, nasanay 'yan sila. 'Pag sinabi ko talaga na... Eh itong mga taga-Maynila na u\*\*\*. Akala nila nagbibiro ako, sinabi kong p\*\*\*\*\* i\*\* hihiritan kita.

Akala nila nagbibiro ako. Mangakap lang ako 'yung sa babae lang 'kay... Sabihin, "mahal mo ba ako?" Siyempre alang hindi. "Oo. Mahal kita."

"Huwag ka mag sige tawag doon sa bahay ha kay mabuko tayo." *[laughter]* 'Yan ano lang 'yan. 'Yan man ayaw ng babae sa akin. Kasi 'yung sa *[unclear]* kung magbiro daw ako ng babae. Eh totoo man talaga.

Eh kagaya nito ni Ventura, ilan 'yung kanya? O sige. Eh ako ilan? Apat. Tatlo na lang kasi hiwalayan na ako nung isa. *[laughter]* Asawa ko. Si Elizabeth. Si Honeylet. Asawa ko rin, si ano... *[laughter and applause]*

Pero 'yang binabalita nila 'yung naging secret ---- hindi, hindi 'yan. Kaibigan ko lang 'yan. Huwag kayong maniwala doon. Masama kaya pakinggan 'yan ang ano... Appointing somebody na... Hindi 'yun. Huwag kayong maniwala doon. Iba 'yung akin pero pag nakita ninyo ito si --- bilib talaga kayo sa akin. Tignan ninyo. *[laughter and applause]*

--- END ---
