**PRESIDENT RODRIGO ROA DUTERTE**

**AT**

**"GIVE US THIS DAY"**

**BY PASTOR APOLLO C. QUIBOLOY**

[Kingdom of Jesus Christ Compound Broadcasting Studio, Sasa, Davao City |  
07 June 2019]

**PRESIDENT DUTERTE:** ...flood the country with drugs, it really means the end of it. It's a deadlock.

Mexico, there is the [Sinaloa]. There is the cartel versus Mexico. I would not want that to happen.

There's a very strange side story in this, Pastor. Alunan, Secretary Alunan, one of the brightest of the Cabinet --- among the Cabinet members of President Ramos. Alunan was called by the DEA in America --- that is the Drug Enforcement Agency and he was told point-blank that if your country cannot improve on its present situation combatting drugs, it would not be a surprise thing for us if your country becomes a narco state.

And that was during the time of President Ramos and I was a mayor and I was one of those called to Malacañan to hear the lecture of Alunan that the possibility of narco penetrating government is real.

And it came to pass, two presidents that we elected, mayors who were into drugs, barangay captains doing the business, police generals in Manila involved in drugs.

So I was horrified actually. When I ordered General Bato, the senator-elect now, to open the records for me and to tell me the truth what is really the state of things, especially drugs vis-à-vis with the law order of the country. And you saw the thousands and the millions who surrendered.

And what is really very funny Pastor is that the count was just for Manila and General Bato said or Senator Bato said that it's 1.6 but the count was just for Manila. It did not include Bacolod, Iloilo, Davao, Cebu, GenSan, Cagayan de Oro.

So nakita mo that in between those years, far and wide, there were elections. You saw barangay captains by the thousands into drugs already. So in a sense that we had mayors there in power, utilizing government, naked government resources and privileges to get by into the drug business.

Kaya ako napilitan eh. And I said, it's either that you just kindly listen to us. We are not begging but we are pleading. Please do not destroy my country. My country's beautiful.

We are here in Davao, we own the most --- talo pa ang... Itong mga network sa Manila, in terms of comfort and... Wala kang... You go into 'yung mga hambogero na... Many are just exploiting minors there and...

Pero ito dito sa Davao, this is the pipeline of God. Nothing immoral is being discussed here but if you think that the person is immoral, he's not part of that pipe. But this is a pipeline where we get to our message, the civilian sector to the population and probably, you may add your spiritual words in it. It's needed because otherwise, we'll just have to guess what is there in heaven or in hell after this life.

So if you are not sure of that, you just better straighten it out here first because you'd take a very, very serious and big gamble if you just try to guess whether or not your country is good for the citizens.

Me, I promised you. I remember because I shortened my speeches during the debates. And it was really very clear that I said I intend to just maybe control corruption. And alam mo, it tempts me to say that most 'yung mga gustong a better life, are in government.

Your ambition sa kanila, if you want a better life, you can own a car or a house or a mansion for that matter, join government and select the best --- ang karamihan diyan noon, it's Customs, the BIR. 'Yun ang mga --- so 'yun ang --- diyan ko tina-target sila.

Now, I do not have the slightest doubt about the integrity and honesty of Roy Ferrer, the acting operations officer of PhilHealth. And I [know?] nothing that they are part of it. Actually, they are the also ones of those urging or batting for the prosecution of itong sa PhilHealth privileges that were abused

tremendously. As of last count, it was about 154 something, if I'm not mistaken, billion.

So wala akong ano sa kanila kasi 'yung mga --- karaming mga hospital. I don't know if doctors are involved. They are charging, overcharging or charging for nothing para ring ghost deliveries 'yung... Treating patients --- they are fictitious already because they are dead but they are on the list getting the dialysis.

Totoo talaga 'yan. Marami talaga ang --- I don't know but marami talagang may sakit na nakikinabang sa PhilHealth. But the sheer amount na 100 something billion is totally, totally unacceptable to me.

In today's newspaper, I was reading it, reviewing the --- my briefer every night. I am inclined to believe that I have to do something about it next week.

And to all the doctors there who have been working honestly, it's not because that you are involved. I know. I should know because I've been asking.

But for the sheer amount that was lost, I have to reorganize your entity, change maybe all of you and install a more --- systems of accounting and accountability. Bakit umabot nang ganun kalaki without the necessary checks along the way? 'Yung parang kung sa highway pa, the checkpoints.

At the --- sana when it becomes clear that the amount is getting big, somebody should look somewhere. I really do not know how to do it. I am not a systems analyst but what we need are really business people because 'yang mga ganun is purely management.

And even the Armed Forces of the Philippines. If you have a good manager, a military man who is a manager, you are fine. In government, my department, I am the Executive department so I am the head of government down the line, with the exception of Congress and the Supreme Court, 'yan lang hindi kontrolado. Lahat kontrolado ko na.

And sometimes, even with all the zealousness and maybe --- what would you term it? Pedantic attitude. Minsan sobra ka kakuti, even by adopting that kind of attitude might not really help.

So when I go back, I'm making the announcement that I am maybe reshuffling the PhilHealth. And I will --- itong mga over, nag-overcharge or getting payments for dead or those who are patay na, dead already, certified

by the health and yet their name was still in the list getting treatment sa diabetes every week.

And so I kind of --- was there a kind of checks that you installed? Because if none, then we have fallen short of our duty to really protect the money.

Alam mo kasi `pag doctor ka, abogado ka, when you had the prosecution, if I'm a lawyer, I was once upon a time a prosecutor. And when I'm the head of the National Prosecution Service, kagaya ko noon ang boss namin is the department Secretary of Justice. The sheer number of people to be supervised is justtoo daunting. And that is why you need to a systems analyst to make it easy for you, especially to establish the checks and balances somewhere there.

It is not enough that Congress, a congressman or a senator would stand up and say we have been losing money, we have been robbed of... Government is a dynamic thing. It's working everyday, whether or not it is really for the good or to the misery of the people, that is something else.

That is why ang gusto kong malaman ng Pilipino, I am not into dictatorship, far from it. I said I will resign the day I finish my term. You can bet on that and I swear to...

Pero, medyo istriktuhan ko. And pati itong mga projects where the courts have the unbridled issuances of injunctions. Ito nanalo na `to, siya na `yung gagawa ng tulay. There's a idiot who lost the bidding, will file a case just to delay your money and the project at mabigyan mo ng areglo, it's all together dismissed and the project has been delayed.

That is the sad story of the Filipino way of life. Magtanong ka ng mga engineer diyan, you can ask anybody connected there, people connected with huge, big-ticket project, meron `yan.

So either susunod tayo sa batas na which should allow us not to perform, not to complete the projects, delay the projects. At ang tamaan ko naman -- - ang akin is my promise to the people. I promised this and this and that. I promised corruption, I will have to do it. And if it would take losing some of my --- takes a lot of emotions there. Not hate but --- so that they would understand. That you are not there to punish everybody but you are there to takeover and investigate and punish those who were responsible for the losses.

And I will maybe order the arrest of --- well-being center, 'yung dialysis... 'Yung administrative na sinasabi nila, ni Roy kanina that they are initiating investigation and they have 20 days. That's s\*\*\* to me.

I'll tell the NBI: Arrest the idiot. And I will bring him to Malacañan and I'll ask him: Tell me the truth or I'll throw you to the river. But he will be extricated, we'll not allow him to be drowned.

And a host of things that I have still to do. Hindi ito madala ng ano --- 'yung corruption tapos nandito itong... It's always the eternal battle of corruption, tapos dito you come in strong, investigate, wala ka namang --- you are not condemning anybody. But they would shout that there is due process and things and delay everything.

If that is the way how we treat the serious issues of our day, then you might as well forget a Philippines that is in parity --- being equal with the rest of Southeast Asia.

And even if you give a president five terms, for as long as there is no law and order, there is fighting, the communist are there extorting money and killing soldiers, killing civilians, lalo na 'yung mga barangay captains, if they are there, sowing law and order, pati 'yung drugs at corruption ng gobyerno, 'yang dalawang 'yan, wala tayo. No way of --- there is no way of correcting the seriousness of the problem, 'yang sinasabi nilang sa Constitution.

Kasi alam mo bakit? Hypothetically, government is presumed to have all the powers, unlimited, unrestrained. Walang ano --- walang... The only one that bars or that protects the people from these vast powers that can be used for dictatorship, corruption is the Bill of Rights, presumption *[unclear]* and due process.

But if you do not know how to mix it and you get carried away by this Constitution, human rights, and --- when the problem is already very serious and you cannot balance the *[unclear]* because you are afraid, wala. So somebody has to take the gamble.

You want me to --- to send me to prison? I'll go. No problem. As I have said, the presidency is a gift from God. So it's not given.

Believe me, now that I have experienced it, the presidency is a gift from God. And my advice to the coming presidents, if they get into office, in the meantime, do not covet anything and it will come to you. *[applause]*

Ikaw mismo, Pastor. How many times did we almost quarrel, debating whether I should run or not? And we were weighing my options of no money, no party.

And you were insistent because as a man of God, that story you told us, told me even after that incident many years ago would just crawl into the topic of... Or how about because I dreamt, as I told you sir, I was playing golf but it was not our golf course here but in Malacañan. And you saw me holding my putter but I was talking to group of generals.

Well, in a way, I get to mix with these guys wherever I see them or in command conferences. Naging totoo. So... And also the advice of my mother. My mother said that: Do not covet it. It will not come. Hayaan mo lang. Huwag mong hingiin, especially the...

Sabi ko, "Eh paano pala 'yung sabi ko maging abogado ako?" Well I have to --- that is something else. That has nothing to do with 'yung raw ambition to be somebody.

Sabi niya: Huwag mo --- pagka hiningi mo 'yan sa sarili mo, patay ka. Hingiin mo 'yan sa Diyos at kung ipagpala ka ng Diyos, ibibigay sa'yo. *[applause]*

So if it is a gift from God, this is simply what... I would reduce it to a very simple equation. For the human rights and for the bleeding hearts, I have a nation to protect and to preserve and I have millions to provide security. And I promised that to the people that if I get elected, there will be a change in...

Ang sabi ko sa kanila, sabi ko... At that early sinabi ko na, do not with drugs because I will...

Kayong mga taga-Maynila, kung hindi kayo naniwala, ay pasensya. Dito sa Davao, kayong mga remaining durugista diyan maski isang ganun lang, 'yang shabu i-ganun mo that can kill you. Believe me.

Then nag-bulto-bulto, okay lang. You make it appear that sometimes government is inutile because we cannot do anything to stop your racket. But if we get to meet in a corner per chance, you're dead. I promise you, you're dead. If I go to prison, I will sacrifice going to prison. If I die there, naturally I'm old. I have but a few remaining years.

Hindi ko pa lahat nabasa 'yung libro na binibigay. I get 'yung mga libro-librong... 'Yung mga Cabinet members they're fond of travel also, attending

conferences. When they come home, alam nila mahilig ako ng --- magbasa kaya meron talagang libro 'yan about this in Amsterdam.

Pero hindi ko --- wala akong panahon... Nakalagay lang diyan. Sabi ko this will provide the reading materials kung nasa Muntinlupa na ako and waiting for my hour with my maker.

Hindi... I'm not without ---- may sakit. Pero kung sabihin mo na na-operahan daw ako sa heart. If there is something wrong in my heart, it cannot be a heart disease. It could only be that a wayward heart has so many hurts that it ceased to see the right --- the right numbers of...

Can we proceed to the next? Well, I said crime, drugs, ay bahala ka. Then 'yung mga kidnappers, mga... Susmaryosep.

If you kidnap a lady or a child tapos namatay 'yan sa kamay ninyo, you will just have to pay. And payment has so many denominations. One is you are prosecuted in court and sentenced to jail. So you spend time there.

Sometimes 'pag ako ang nakasalubong mo then you will be part of the welcoming committee in heaven or in hell, depende.

Pero hindi man ako maniwala diyan sa gate-gate ng hell or heaven. There has to be something else but not the kind of --- not the kind of 'yung Catechism na tinuro ng --- sa amin. No offense intended. Kagaya ni San Pedro, the gatekeeper, may dala-dalang manok. Bakit? May sabungan diyan sa langit? *[laughter]* Yun nga eh. Istorya na ganun.

Gawain ko pang tinola 'yung sunoy niya. *[laughter]* Sabi ko free education, you heard me doon sa debates. Sabi ko, no more irrigation fees for the farmer. A little bit tied up on this because it's not easy to work on something which you do not get in return.

And it is a running thing and it gets tired and you have to fix it from time to time because it breaks down. Nandiyan na 'yung health care. Ito naman binababoy. Sa edukasyon, well...

Kasi hindi man talaga natin alam kung ilan ang mag-enroll ang problema. And we are the fastest --- ang population. And I squarely blame the Catholic Church. Sila lang nagpipigil ng mga --- 'yung birth --- family planning. Kaya pinigilan nila 'yan eh. They think that just spewing out human beings by the millions every year is a gift from God and promoting...

But to --- well not this generation but four or five generation, to your lament, you will know who to blame.

Ang Presidente lang nag --- nag-ano niyan ako pati si Ramos. Ramos, he's a protestant. Ako binibigyan ko talaga doon sa opisina libre. Ang pati itong... Sabi ko nga ito, itong mga health officials. If you cannot follow the family planning law of the government, you better resign if you have the scruples to fight with.

'Yung ano na sa pari. Then you go out. Or I'll just --- I'll assign you to an empty room. All of you there. Tatal kung hindi ko natanggal, ganun ang style ko. I'm thinking of that. Ilagay ko kayo. You are not performing? You do not follow government policy? It gets into your religious beliefs? Then step down. Leave the government because we have...

We are now 110, the second highest. You'd... You know, if you look at the figures of the population growth all throughout the world, the Philippines is a baby machine. And you are forced to even believe that wala na ginawa ang Pilipino kung hindi mag-rapapap.

Then of course the big-ticket which God gave us because I was not sure of -- - itong ano, tulungan ba tayo ng China, because at the end of Aquino's term and during my first few days, we were quarreling with China. But one lucky break was that we knew that Marawi was exploding and we bought 'yung 23,000.

As the --- as the hours ticked by nearing to that fateful --- pinara nila 'yung... Because, it --- you cannot use it against your own citizens...

You know in America, in Canada, everywhere, you don't kill your violent criminals? You do. Me, I have citizens who are cutting the heads of foreigners and Filipinos and everybody. I have a group here fighting to overthrow this government by force. And you say, "You cannot use it against your own citizens."

Eh 'di pagka ganon, i-surrender ko 'yung gobyerno ko. I'll just simply say, "I give up. I do not have the arms." So that was the critical moment when America was...

I'm just saying it because I like Trump and I would like to assure America that we will not do anything to hinder, hamper, or whatever. We will go along with our alliances.

But to me, China and Russia are not enemies because 'yung hindi dineliver (deliver) ng Amerikano, that was the time that I went to Russia only to ask President Xi Jinping, "Give me a credit line kay wala akong pera. I'd like to buy the guns which were not delivered by America."

So sabi ni Xi Jinping, "Okay." 'Pag --- pagsabi ko, "So, what's the arrangement?" "It's yours. I'll deliver it. You do not have to get it."

Then I went to Russia. Putin listened to me with a very sympathetic heart, not an ear even. And he said, "Okay. We know the situation. We are there. We are spying and we know everything." Sabi ko, "Thank you." "I'll send you the arms plus trucks." To this day Pastor, they have not even asked for one pen as payment.

They have not --- they have not asked a military alliance. They have not asked for any special favors to operate in this country unlike the Americans. They are not even --- they are not asking for any base. They say that we can reach you anywhere, any time faster. We don't need the bases. We have the submarines right there in their pantalan down there.

We... Kaya kaibigan ko lahat. But 'yung sa --- America naman dahil kay Obama. You know, I'd like to remind the Americans again that you know, just because you look down on a nation as inferiors, especially that you colonized and subjugated us for 50 years and you think that we are inferior.

You castigate a President of a country. I was the one. In a press conference, Obama said that, "You know, Mr. Duterte, you'll get in trouble with this ICC and we will prosecute you for..." Ito namang media, Philippine media was also...

**PASTOR QUIBOLOY:** Partly to...

**PRESIDENT DUTERTE:** Mainly, 'yung mga kalaban ko, 'yung si Otso Diretso naa na sa impiyerno. *[laughter]*

Kaya akala nila ako bastos, ako ganun. Akala they can have --- if they select men of highest integrity. 'Yun ang ilagay mo pagka presidente? Wala. Walang presidente na...

Nung pagputok ng simbahan sa ano --- doon pumunta ako mismo doon. And the other day, I awarded medals there in Jolo. I really do not know kung itong mga 'to --- matapos na lang, ilang term na hindi mo --- hindi man lang

makakita kung ano ang Tausug, ano ang... What's the culture of the Tausug? What's the subculture?

We have the culture because we are all Malay. Indonesian, Malaysian, Brunei tsaka Philippines. That's why we look very similar. The only thing is that imperialism did us --- the imperialism. Had it only been for the propagation of a faith, okay lang sana because God says all good things. Pero hinaluan ng subjugation ng country, occupation. Spain, 400 years.

They sat on us, took the fat of the land, lived with it and... Tapos itong mga Amerikano. Then you expect me just to say Hallelujah, thank you for the religion. That's what happened. We were all Malays. We were ruled by our own clans, a tribe.

The tribe of Cebu is not Cebu, it's Sugbu, Sugbuanon, Hiligaynon, Waray, 'yun. Eh pagpasok ni Magellan, tinaga siya ni Lapu-Lapu. Lapu-Lapu was a Muslim. That's why it's not a quarrel na sabihin mo --- it were really a quarrel right at the start.

Kita mo si Lapu-Lapu 'yung ano niya headgear niya? That's a headgear of a Tausug. 'Yung sa mga depict sa mga painting. That is the headgear of the Tausug. Nauna ang --- in trickles. Nauna ang evangelization ng Islam by almost 100 years. Then Magellan.

But Magellan came with gunpowder. O 'di takot na lahat and itong mga Cebuano, maybe some of them were [Muslims?] before, 20 grandfathers ago. Eh kung kaharap mo naman kanyon, 'pag tinamaan ka na, wala ng makita. Kurog ang...

That's the story. Huwag na lang --- huwag tayo ma... That's the story of Malaysia, the Dutch taking Indonesia. And now, modern times, they pretend to be the conscience of... They want me to appear in the International Court --- Criminal Court before a panel of judges who... For all I know, you were...

Puti? Why would I stand before --- in judgment before white men? Who are you? You --- if you want to... There's a lot of cases to be prosecuted there, itong sa... That's what's happening in Syria and anywhere. Millions of people have died there. Indiscriminate bombing. Hindi naman mamili 'yung drug lord diyan o ano holdaper.

Dito? You just don't kill a guy because he is suspected. You know, if you are a drug addict, I will buy... "Pabili nga." Because he's a human being, buy again. Positive 'yun. Buy again. Human rights.

So 'yan ang gusto kong mailabas. Hindi ko talaga --- hindi na ako nagpapa-interview ha. Choosy ako, choosy. *[laughter and applause]* I don't --- I don't especially... I have lost completely --- I have lost completely trust diyan sa Philippine media. Hindi na ako...

After all the trash that you have read, all of you. Pati 'yung anak mo, drug lord. Sila rin lang may sabi na there will be a reckoning, sabi ng Magdalo. Oh well. Sabi na rin ni Bong, "Bilog man itong mundo."

**PASTOR QUIBOLOY:** The reckoning came.

**PRESIDENT DUTERTE:** I don't know if Senator Go is here. Senator, kindly show your face. You have --- even for a moment so that... Bong really learned so much for the --- in the 21 years he was... Tindog diri. Kuan lang, pasalamat lang.

Ladies and gentlemen, I present to you senator-elect Bong Go. Bow, Bong. *[applause]*

So you are only a senator-elect, not yet a senator. When you are a senator, you will be invited to take part here. *[laughter]* In the meantime, you wait. Hindi bitaw. *[Senator-elect Go: Nakalimutan ko mag-medyas.]* Hindi ka man talaga naga-medyas.

**PASTOR QUIBOLOY:** Mayor, when did you discover this anomaly in the PhilHealth? Long time ago?

**PRESIDENT DUTERTE:** I have been reading about it that it was losing, that there were so many fraudulent...

But I could --- I did not have the idea of the amount involved in the loss. So 'yung nabasa ko and also copying the words of the newspapers, say that hemorrhaging, dumudugo na. The only way to stop it is to be --- go to a doctor and have it --- have yourself operated on.

If it's the arterial that they are messing up and that is the capital of... What is really worse is it's public money. So I am very strict. I do not want to hurt people. At this time, I do not have the evidence or proof so that I am not in a position to say that there's government men involved.

Pero 'yung mga hospital nagcha-charge na maski wala na 'yung pasyente o 'yung mga dialysis patients, 'yun sila ang nagfa-file ng fraudulent claim. That's fraud. So sila 'yung unahin ko. But I'm looking into any culpability of an employee of government joining or in cahoots or in conspiracy.

Kasi talagang hahabulin ko 'to and I will not --- I will order the ent... They're listening to me now. I'm ordering you, the NBI. Kaya kayong mga NBI mag -- makinig kayo dito sa ano. If you do not want to pray, just listen.

The NBI should take over by tomorrow and start to summon everybody. And if the owner of that wellness thing there where these fraudulent claims were discovered, arrest them. That is my order. Arrest them. Place them in the -- - 'yung blotter ninyo, upon orders of the... Arrest them and investigate them right away. No ifs, no buts.

Sabihin niyan abogado, meron 'yan makialam. Sabihin mo, order ito ni... And we will quarrel. Ako na ang bahala.

Sabi ko nga sa inyo lahat kayong nasa gobyerno, military, police, NBI, just follow the law and I will take the bullet for you. Remember that I will not order anything that is illegal. I cannot do that because I'm the President. What comes out from my mouth is already a well-thought-of way of doing it.

The estafa is continuing. It is syndicated estafa 'yan. No bail 'yan. Kaya arestuhin ninyo because right at this moment, the estafa, the malversation of money is continuing. Hindi ito na nakasaksak ka, tumakbo na 'yung nagsaksak.

**PASTOR QUIBOLOY:** Kapa...

**PRESIDENT DUTERTE:** Ito, it is a continuing crime. So arrest them and investigate them. And kayo namang mga taga-ospital, you might want to just surrender and... Because the Filipino people is demanding for truth.

And I'm very much interested to find out what happened to the money. Sinabi ko sa inyo, hindi ko talaga kaya ang corruption na 'yan. Magkasala ka

nang magkasala, huwag ka lang magkasala ng corruption pati 'yang droga. *[applause]*

Kaya ako nagpayag rin talaga and I said yes instantly because I had in mind to say these things tonight, Pastor. Mabuti't na lang may sounding board ako, nasa Davao pa.

So what if I talk about politics and about the mundane things of --- even women? There are... Kasi sabi nila, "Ito Duterte, misogynist." Why, is it wrong to say: "Karaming kagagandang babae uy."

Para sa kanila, that's an --- 'yung man-hater 'yan. Misandry? [Misandry]. The one is misogynist, the... Hindi man natin ano. The hatred for homosexual is homophobic.

**PASTOR QUIBOLOY:** Homophobic.

**PRESIDENT DUTERTE:** Ito, [misandry]. Men-hater. Kasi kayo, alam ko magalit talaga kayo sa mga lalaki. Nakita ko naman kayo. I've met you... Ang papangit ninyo. Ang babaho pa ng...

The best practice is after eating our snacks, you brush your teeth. 'Yung iba naman 'yung... Wind beneath the armpits. Totoo.

Itong --- 'yung isa si ano. She's been asking --- you ask... Marami man kayo. Everybody of you, may kilala kayo na senador o... Siya 'yung nagsabi, si... Torsi, si Torsi --- dillas... I chose to forget her name.

**PASTOR QUIBOLOY:** Tordesillas?

**PRESIDENT DUTERTE:** Oo. Tagal na 'yan sige pang hingi-hingi kasi may sakit daw siya cancer. Hanggang ngayon, buhay pa rin. So maybe tonight, we can pray together to pray for ano. Para hindi na maghingì.

Choose the prayer you want, *[unclear]*. You good Christians, you love your fellowmen. You see no evil in... Pray for her recovery. Sige kasi lang 'yan hingi. Tapos walang recovery.

When we pray, you pray for her, for her recovery. But my prayer would be different ha. And you know, what you are thinking, probably that you'd pay -- you'd pray would be exactly the opposite of that and that is my fervent...

**PASTOR QUIBOLOY:** Prayer.

**PRESIDENT DUTERTE:** Prayer.

**PASTOR QUIBOLOY:** Mayor, you mentioned about the Kapa which is a continuing crime?

**PRESIDENT DUTERTE:** 'Yan. Isa pa 'yan. You know, kayong mga CIDG, kayong pulis, the special investigating teams there, the CIDG, 'yun ang ano ng --- pati NBI, that is pyramiding.

When it is good to be true, it is fraud. Biro mo 'yung 100,000 mo would earn 30,000 a month? Ni bangko na 'yung Banko Sentral natin magbigay, tres lang porsyento. Ilan ang porsyento ngayon na? Annually ha.

Eh ito, kayong mga Pilipino, ilang beses ko na kayo sinasabihan? 'Pag ang -- - what is being promised to you is something like heaven, walang tao dito, walang bangko, maski 'yung Bank of America can afford to pay you 30,000 every month for your 100,000.

Kinolekta lang rin nila 'yan 'yung pasok. Ang problema just like the Legacy, anything, 'pag at the end of the day, 'yung walang makuha, you are into syndicated estafa.

That is why NBI, sirahan mo na mga --- sirahan mo na sila at dalhin mo doon sa --- upon my orders, upon my orders, otherwise, I said do not... *[applause]* Hindi ako magma-martial law, hindi ako mag-ganun.

Pero 'pag ginawa ninyo droga dito, droga doon, pyramiding dito, pyramiding doon, then we have to fight the NPAs, we have to fight the terrorists, we

have to fight... 'Pag wala na akong sundalo, then I will force the stand of government. Maniwala kayo.

Huwag kayong mag-ano sa akin. Hindi ako mag-martial law, mag-revolutionary government. 'Pag hindi niyo sinunod 'yan at palapit na ang pagsira ko, kasi pinangako ko 'yan sa gobyerno, sa tao, Pastor. Gagawin ko talaga --- mamatay ako kung mamatay o anong gusto nila, gagawin ko 'yan. But then I will force my stand. Hindi ninyo alam. Eh secret 'yan, siyempre. *[applause]*

Wala na eh. Kasi kung wala ng maniwala, they lost faith in government, then they believe into the obnoxious or odious practice of getting money from the people and you think that...

Do not --- do not do it because you might be treated as a drug pusher. 'Pag hindi talaga ninyo... Then I will... You want me to enforce it on you or you obey government? Kayo. The choice is yours.

The path to heaven is paved with faith. The one is paved with all the good intentions of the idiots getting the money of the people --- hard-earned money.

Huminto kayo kasi 'pag sinobra, putok dito, putok doon, putok dito, putok doon. Wala akong sundalo pati pulis ganun karami. Then, let it not be said that I did not warn you. You guys in the pyramiding, pity your family and your children.

**PASTOR QUIBOLOY:** Kasi there's no pyramiding scheme that's happened even in the U.S. or here Mayor that in the end did not go bankrupt.

**PRESIDENT DUTERTE:** It gets bust. Because sila pa o ito o kasi marami pa, the number is still good. But then as the crowd gets thinner kasi nakabigay na lahat, ang ibalik nila kaagad 'yung 30,000, ibigay kaagad, wala na.

O magbigay siguro 5,000 na lang hanggang mawala na 'yung investor, 'Pag nawala 'yung investor, you go kaput. So huwag ninyong gawain 'yan kasi mapapahiya ako.

'Pag napahiya ako, mag-iyak ako. Tapos magsabi man ang guardian angel ko, "Bakit ka umiyak?" *[laughter]* Sabi ko, "Kasi," sabi ko, "marami kasing mga taong mangloloko sa mga kapatid ko." "Hindi mo 'yan sila kapatid," sabi ng angel. "Iba ang kapatid, hindi nanloloko ng tao. 'Yan ang mga anak ni Lucifer." *[laughter and applause]*

And you know, because you are the devil, you can produce a human being. He has perfected the art of --- anong tawag nito? 'Yung pangloloko. 'Yan si Lucifer. He has also many angels. Angel --- 'yung evil, 'yung bad spirits. 'Yan ang kay Lucifer. Pumapasok sa utak ng mga --- mangloloko ng kapwa tao.

They go into swindling and everything. At ito si Lucifer, he does not need a woman to beget a son. He can invent one and that's the art of deceit and malice which Lucifer is...

Pabaya mo, Pastor. 'Pag nakita ko 'yang... *[laughter and applause]* Sige'g pangilad, sige'g...

**SIS. CARDONA:** Mr. President, maraming salamat po. Marami pa pong tanong pero magbi-break po muna tayo. We'll be pausing for a break. Thank you so much.

Actually, this is a very exciting, enlightening, and truly --- episode *[unclear]*... We have a very special guest, no other than our President Rodrigo Duterte. But we'll be pausing for a break and we will still be throwing these some questions here.

And so this time, Sis. Yulia Titova will be joining us to sing a song entitled Dakilang Katapatan. So may your hearts be blessed as you listen to this song.

*[Sis. Yulia Titova sings Dakilang Katapatan]*

**SIS. CARDONA:** We bless the Father for that wonderful song. We're back here in this live broadcast of Give Us This Day, in this very special episode together with our beloved President. And before we continue and ask questions to our special guest tonight, we will be showing you this audiovisual presentation. Let's watch this.

*[audiovisual presentation plays]*

**PASTOR QUIBOLOY:** We've covered much of the things that you want to say but we still have many questions here but we are running out of time and we don't want to take much of your time but we still have some questions to ask you. So one of the questions that people are asking is what will be the legacy of President Rodrigo Roa Duterte?

**PRESIDENT DUTERTE:** Hard work. Just like any government worker that during my time, I taught a lot of hard work so that the others will follow. No great claims. I credit it all to, you know...

Kasi ganito 'yan. Do you know that I do not accept awards? Remember, there was this hostage taking in --- there in the Davao Penal Colony? And well, to make the story short, I offered myself to --- as a substitute for one child and the yaya who was the mother of the child, parang auntie niya.

Nangyari kasi, ang naghawak doon sa loob sa bata, 'yung sister-in-law, 'yung auntie niya. So because the wife was talking to the prisoner. Suddenly, a commotion broke out and they had knives, there was a hostage taking.

So I caught up with them somewhere in Agusan, following day. They commanded a --- 'yung parang Sarao na mahaba na jeep. So I landed in front of them and 'yun I kind of --- sabi ko, because sabi ng mga doctor doon, blue na daw 'yung kamay ng bata. 'Pag hindi 'yan... Kasi walang dodo. Ang nanay ang nakatakbo eh. Ang naiwan 'yung...

**PASTOR QUIBOLOY:** Bata.

**PRESIDENT DUTERTE:** So sabi ko, i-release 'yung bata pati 'yung --- ako ang mag... Para mabuhay lang. So...

Well, anyway, to make the --- another short shortcut. I was offered an award. Hindi ko na lang banggitin. And I said, "No, I do not accept awards." "Why?" Sabi ko, "Because I'm paid. There's no sense of accepting an award when you are paid exactly what you are supposed to do." And that has been my...

This Boracay thing, I do not really [*unclear*]. During the campaign, I was there. And call it a spade a spade, the water really --- ang amoy \*\*\*\*\*. So

someday, sabi ko, I was just taking my time kung paano ko --- to provide an alternative. You will dislocate people when...

But I finally decided one day that this could not wait any longer. Ginawa ko. So ang inutusan ko si senator --- si General Cimatú pati si General Año ng DILG pati CENRO --- ah no, of course si Berna sa Tourism, Secretary Berna Romulo-Puyat.

Ginawa --- I said clean the --- six months' time. So this was this grand opening and they were putting so many banners around. "Thank you President Duterte for..." Nung nakita ko sa afternoon news, sabi ko --- tumawag ako, sabi ko, "Bong, sabihan mo sila sa... I will not go there," sabi ko.

The praises are too sumptuous, more than I deserve. I'm just doing my duty. So 'yung ganun, ipatanggal mo 'yung banners. Pero I did not really go there. But at that day, I called the Agrarian Secretary. Sabihin ko na: Behind the beach... May mga lupa 'yan. Kaya marami ng ano doon. It's a coveted island because it's a world-class. So maraming gustong pumasok. And there were speculations that I was preparing Boracay for my friends, ganun, na mga Chinese.

Sabi ko, "Sige, tingnan lang natin." So I did not go there. But a week after, I ordered the --- behind that beach there, [the whole?] of the island, 'yan ang ginawa kong --- I declared a land reform. Sabi ko sa DAR Secretary, "Declare it as a land reform area."

Pagkatapos, pumunta ako ng gabi, pinatawag ko 'yung mga Ati. Binigay ko sa kanila. Sabi ko, "Ito na 'yung lupa ninyo." Sabi ko, "Take care of this land because by now, maski ipagbili mo ngayon --- but which is prohibited by law kasi agrarian beneficiary, but you wait for a period."

"Surely," sabi ko, "your children and grandchildren will be holding millions of pesos someday." Bawi na rin 'yun for generation of deprivation. So lahat ng --- sa likod ng Boracay, sa Ati 'yan lahat binigay ko. Wala akong binigyan diyan na iba.

Ito namang mga NPA, the relevance of the NPA is that they have been telling people that lands will be given to them free. Of course, this is

Philippines. Kanilang lupa 'to eh. Ibigay mo talaga sa kanila. And ganun-ganun.

Kaya to make them irrelevant on that issue, ako mabilis ako. I distributed something like 60,000 hectares. I ordered the government --- si DAR, Castriciones, to: "Unahin mo na 'yung sa gobyerno, ipamigay mo na. Ipamigay mo lahat. Huwag kang mag-iwan, huwag kang mag-iwan sa panahon ko."

Tutal wala mang gamit 'yan, 'yung mga reservations sa mga foundation. You know, 'yung panahon ni --- I don't have to mention the president. There was a time when this private --- mga power players, mag-ano ng foundation then they get the big slice of a land, forestal, agricultural, and name it as part of a property of mga foundations.

Sinira ko lahat 'yan. Binigay ko sa --- sabi ko, ibigay mo, wala 'yan. Para lang 'yan sa mga mayaman na marunong mag-ano and they have not developed the lands, so get it. Sabi ko --- sabihin may notification. Sabi ko, huwag na. Sabi ko, sa mga land reform, 'pag pumunta 'yung may-ari dito, ilibing ninyo.

Hindi naman... Hindi naman nila --- kinuha lang nila 'yan because of money and influence. Kaya sabi ko, just hard work. I do not want to be remembered as ganun-ganun. Well, if they --- if they want to do it, fine but they really don't need it.

Ayaw kong --- I said, I have --- I have an overdose of... You know Pastor, matagal na kasi akong --- matagal na tayong magkasama. 'Yung... Ikaw na ka gwapo. *[laughter and applause]* Ako nagka-sira-sira 'yung... Samahin mo lang ako sa derma mo kung ano bang... *[laughter]*

Ang akin is trabaho lang. Maski anong gawa mo memorabilia, ganun, a hero. You cannot build a --- 'yung sabihin mo na para --- for you to be remembered for all time. Julius Caesar was only remembered because he was stabbed by the senators. 'Yun lang.

[Ninoy] because he was shot by... Wala. Ang tao is not... When you are gone, you are gone. People will not remember you na...

Kaya wala ako. You don't see 'yung mga awards, plaque. Bigay ko 'yan sa iyong... Ito, ito sabi ko sa kanang tigpalit og kuan bakal.

Hindi, I do not keep 'yung mga --- except the paintings, of course kasi mahirap gawain 'yan eh but I have a lot of it. Pangit, hindi masiyado pangit.

I just want people or if they would really care to remember, he was once a government worker and he worked for the people.

That's the legacy that I'd like to leave. And when I'm gone, forget me. I would be flying, soaring the universe. And it would also take you some --- a life without an end to cover the entire universe. Mamasyal ka na lang. But be sure to be good.

Kaya ako Pastor, sabi ko nga sa pamilya ko, "If I die, just burn me within 24 hours and just throw away my ashes back to --- dust to dust ka." Sabi ko, "Do not..." Baka sabihin, "Bakit gusto mo sunugin ka?" Well no, I'm not really sure of going to heaven. Too presumptuous of me to say that. As a matter of fact, people listening, especially the crowd the --- itong mga elite, they would think that you are an incongruity.

Well, what I propose to really is I want myself burned to ashes so that when I go to hell --- the usual threat is that you'll burn eternally. So ashes naman ako magdating doon, praktisado na. *[laughter]* Wala. Well, it's really presumptuous of you to say that you...

But God maybe will remember me, hindi naman marami, not so many things, but for the good times that I did good things for my fellowmen. One is that I --- I really do not like oppression, I got it from my father.

Then, my father was governor. And that he was also... And so I followed his... Sabi ko, when I --- and I did. I was also strict sa...

You would notice how big the territory was... When my father died, there was only one Davao. So if you know --- look at it Davao, Davao del Norte, del Sur, Oriental, then you have Occidental, then you have the Cosmo --- Compostela Valley and Davao City.

Ang raming local diyan. So that's how --- that was how big the... Kaya 'yung tatay ko magpunta ng Mati noon, he has take a boat to visit Davao Oriental and he would be away for so many days.

But he will be remembered for his hard work. Hindi naman nag-ano 'yun eh, hindi naman pumapatay ng tao 'yun. He was...

As a matter of fact, if you will look at Vicente Duterte, you'll find there the name of my father --- he was the first --- appointed by the military, military mayor of --- nandiyan sa bio data niya.

The last is --- meron diyan, Danao. Danao --- ma-ano mo ba Davao, dito siya governor. But he was, right after the war.

So ayon. I do not want people to say that you owe --- they owe me this and that. Trabaho ko 'yan. Kagaya 'yung palakpakan mo ako ganun na... I have an overdose of that, sabi ko, praises. Twenty three years plus four years then another up to three years as vice then another three years, congressman.

Wala na ako diyan sa palakpakan. Tapos na ako. I appreciate it but ang akin sa tao na lang. Pero as anybody here would notice, especially you, I really -- - 'yung anuhin mo 'yung may maliit na tao.

That's why we have this --- walang opening ng bag. 'Yung a very sad experience of serving people, especially... Makita ko magsakay minsan sabay-sabay, 'pag-uwi ninyo, especially if it's a delegation, parliamentary visits at when we go back, we buy things.

Well, foreign --- para sa mga --- sa asawa. You are just waived at the Customs. Ganun 'yan sa Customs eh, mag-saludo pa. "Yes, congressman, governor, sir." Pagdating doon sa maliit, OFW, kalikutin tapos kunan 'yung -- - kagaya may mga ano...

Merong ako isang insidente pero hindi ko na lang i-kwento. Talagang pumutok ako diyan sa Customs. Kasi 'yung TV in-assess pa. Para lang sa pamilya. And, kami na lang naiwan, the family, siya na lang ang hinihintay. Kami --- ako, kasi tinitingnan ko talaga paano...

The Customs were forcing her to pay. Samantalang kami na lumabas na 'yung bag namin. If it's something that you have to pay, it's not duty-free. Pero para... There was a scene there inside the... Ayaw ko na ipag --- I also do not want to insult people there.

Sinabi ko, wala ng --- no opening of bags. Nagko-complain si Dominguez. Alam mo ang Pinas, pera-pera talaga 'yan eh. So gusto pa 'yung --- ita-tax pa. Sabi ko, no more. At saka kung may smuggle, ilan man ang mai-smuggle nila?

**PASTOR QUIBOLOY.** Konti rin.

**PRESIDENT DUTERTE:** Palagay mo, biyahera. You take the --- ang hanap-buhay nila.

Ayaw ko 'yung maliliit na ano. Hindi sa --- na I want to be hero of the small man. I just want to enforce what I'm supposed to. Eh ang kawawa kasi 'yung mga maliit eh. Itanim mo ng bala, hindi makaalis 'yan. Ma-prespo pa, ma-detain.

Kaya sabi ko, nung pagka-Presidente ko, "Ipakain ko talaga sa inyo 'yan. You all have to swallow it." Ay, Pastor. Tanungin mo 'yang Presidential Guard. Ako lang ang Presidente nangbubugbog ng tao diyan sa Malacañan.

You want money? Sabihin ko 'yan sa gwardiya. Hindi naman ako nagdadala ng pera. "Bigyan mo akong pera." Bunot kaagad 'yan, 'yan si --- pulis na ano --- si... Kuha pa sa pitaka. Akala kukunin ko. "Ilagay mo diyan."

Sabi ko, "Gusto mo ng pera?" Eh extortionist ka eh. "Gusto mong maraming pera?" "Hindi sir. Tamang-tama lang." "Tamang-tama ka lang mabusog, makakain siyempre. Ganun?" "Oo, sir." "You eat --- gusto mo kaya ng pera. O, siyempre sa pera mabusog ka kasi pang-araw-araw lang namang, iyo 'yan, hindi naman araw-araw na ginagawa mo. Sige, kainin mo 'yan, lunukin mo. 'Pag hindi..."

**PASTOR QUIBOLOY:** 'Yung tanim-bala, Mayor wala na ngayon 'no?

**PRESIDENT DUTERTE:** Mag-init... Lalo na 'yang trabaho mo magpatong... Would you believe it? Punta ka ng--- 'pag magpunta ka ng airport tingnan mo. At any given day ka, dalawang ganun 'yan. 'Yung nasa sine makita mo. Pero doon, drama lang man 'yan, pero talaga 'yung...

Kayong mga promotion sa opisina, 'pag mag-retire 'yung isa, akyat lahat. Sa military pati police, itong general mag-retire, akyat na 'yan ng... Hanggang doon sa baba si patrolman maging [corporal?].

At saka ako nagabasa. Kaya natatagalan ako, inaapura ako ng mga --- sabi ko, "Kayo dito." Hindi ako magpirma ng... 'Yung iba kasing presidente 'pag 'yung pangalan nila, Rodrigo Duterte, tapos may initial, dalawang initial. Ibig sabihin dumaan na 'yan ng parang katiwa --- trusted. So pagkita diretso na 'yan. 'Yung papel ko wala kang makitang initial. Kasi maski mag-initial-initial sila, basahin ko 'yan.

Kaya ako natutulong sa totoo lang. Mag-uwi ako, command conference on any given day. Command conference mag-alas kwatro ako niyan. Cabinet meeting ganun rin, minsan five o'clock in the morning.

**PASTOR QUIBOLOY:** Wow.

**PRESIDENT DUTERTE:** Ordinary day mga alas onse, alas diyes. Magligo ako, kain, kasama ko 'yung mga policewoman. Hindi kumakain 'yang mga -- - kaya ang papayat. Puro magaganda ang... Puro hindi kumakain ng kanin. Kaya wala tayong rice crisis. Pulis siguro... Hindi kumakain itong mga babaeng ito.

**PASTOR QUIBOLOY:** So Mayor, matulog ka mga anong oras na?

**PRESIDENT DUTERTE:** Mga four, five, six.

**PASTOR QUIBOLOY:** In the morning?

**PRESIDENT DUTERTE:** Then 12 o'clock gisingin ng... My day starts at shower one, two. Tsaka hindi man ako kumakain ng ano --- hindi ako kumakain ng breakfast, gatas lang. Hindi ako kumakain ng --- wala akong gana rin eh. Pero sa gabi...

**PASTOR QUIBOLOY:** You still drink milk?

**PRESIDENT DUTERTE:** 'Yung pagkain, naghihintay sa atin.

**PASTOR QUIBOLOY:** Naga-inom ka pa rin ng gatas? You are not lactose intolerant?

**PRESIDENT DUTERTE:** Hindi. Na-overcome ko. I used to --- I remember when I was younger, ang nanay ko, kasi payat ako eh. Kita mo nga doon sa ano --- sa 'yung about me. Payat ako.

**PASTOR QUIBOLOY:** Pero you're still allergic to chocolate 'di ba?

**PRESIDENT DUTERTE:** 'Yan ang --- 'yan alam ng lahat. Ito si [unclear] she's also one human being that cannot tolerate chocolate. Ako if you --- I eat chocolate, in two minutes I'll pass out.

Pagkatapos ako mag-puke, pass out talaga ako. Tapos mag... Ano 'yang chocolate... Ganito. Ito may nangyari, Pastor. Alam ko, hindi ko alam 'yan. Pero nung prosecutor pa ako, ang niluluto ni Elizabeth itlog tapos bulad, bulad talaga 'yan eh, tapos may tsokolate. Gina-ginaganun ko 'yan sa kanin eh.

Minsan --- so every nine o'clock, pagpasok ko, mag-start na ang mga kaso, sumasakit ang ulo ko. Noon, prosecutor kasi ako at ang pino-prosecute ko 'yung mga military offenders, police offenders, pati rebels, sila Evasco.

So I was given by Catitipan, doon para sa rebel, hindi sa [unclear] para ma-engganyo ako mag-trabaho talaga against sa mga rebelde. Minsan nag-trial ako, dumating itong isang pulis, 'yung taga R2 sa intelligence, kinuha 'yung susi kay dalhin niya diyan, kargahan niya, ibalik niya. Binigay ko 'yung susi.

Pastor, hindi ko talaga alam naibigay ko. So after the trial, nag-ano ako ng continuance. Sabi ko, masakit ulo ko. Pagbaba ko, wala man ang kotse ko. Diretso ako sa barracks, doon kay Villanueva, chief of police.

And to impress me, sabi niya --- sabi ko, "Sir, ni --- gi-carnap 'yung ano ko." Sabi niya, "Sige, shoot-to-kill." Eh wala pang tao ito dito noon. Eh 'di doon... Sige, hintay-hintay kami kung may --- na dumaan kasi marami mang checkpoint dito noon.

Shoot-to-kill, patay na 'yung sundalo. Mabuti't na lang nahabol namin. Sabi ko, "Sir, nagkamali ako." "Ano?" "Ako pala ang nagbigay ng susi. Kumuha ng gasolina diyan sa..."

**PASTOR QUIBOLOY:** Even just a little amount 'no?

**PRESIDENT DUTERTE:** Wala talaga. Pero I'm sure that with the numbers, there are people here na hindi nila alam.

But just to --- before you eat chocolate, kumain ka na muna ng... Or if you are an eater and you don't know about it, magkain ka then try to observe if you suffer headache, if it is unbearable, sometimes it can be, 'yan 'yan. You have an aller ---

Pagka ano ka, pass out ka talaga. Ako nangyari 'yan sa --- it's now Dusit but it used to be Manila Garden, 'yung doon ako sa lobby nag --- 'yung Toblerone? Kinain ko 'yun. Tapos doon rin ako nag-puke pero na --- unconscious ako. The next time, nandoon na ako sa clinic ng doctor sa hotel.

**SIS. CARDONA:** Mr. President, may patanong po dito. The Philippines enjoys the status of being the fastest economic growth in the region. Are we on track in providing a comfortable life for every Filipino?

**PRESIDENT DUTERTE:** Ganito 'yan. We have attained BBB, 'pag presidency ko. Then we went to get the BBB+ the next that is A. The A, 'yung credit rating mo. Pagka naka-A maraming --- you can get loans easily and you can haggle even the interest. Kasi... Kay 'yung hindi nakakabayad takot sila kaya mga --- just to be --- 'yung interest malaki talaga, para makabawi na sila, ganun.

Ang Philippines is doing well sa ating exports ngayon. A little bit nag-slid pero we have been enjoying a boom sa lahat.

So I will not bring the Philippines in to the middle class. Pero the only way that this country will progress and also put down the --- itong mga komunista, mga --- is really to take care first of the middle class.

You have to create a strong middle class. Ito 'yung may mga utak eh, ito 'yung marunong, nakapag-aral. 'Pag nai-raise mo 'yan at saka nag-spread 'yung talent nila, then they can generate the money and job generation para sa...

And even in revolutions. Walang revolution nag-start sa --- pardon the... Huwag kayong ma-insulto, tumira rin ako noon diyan sa squatter.

It's the middle class 'yung mga doktor, abogado, including 'yung bayaran sa media. Yeah, because they are the ones who can write and they are the ones who can, you know, invent or do something na outside of journalistic practices.

Outright extortion. Marami 'yan sila. As you have noticed doon sa matrix, 'yung kay Bikoy. Si Bikoy naman pabaliktad-baliktad. Basta alam ng tao na hindi totoo.

**PASTOR QUIBOLOY:** From the beginning, because --- 'yung sinali nila si Kitty, sabi ng mga tao talagang ano 'to 'pag to downgrade you or to put you down. Wala na, wala ng credibility.

**PRESIDENT DUTERTE:** Hindi naman ako nag-comment. What will I do? I said nothing. It's garbage. So why would I talk about it?

**PASTOR QUIBOLOY:** So ngayon, sila rin ang nag-put down sa sarili nila.

**PRESIDENT DUTERTE:** That's why they lost. [Miserable?] thing na nangyari. It came out just before the election. Wala talaga at saka ang lalayo. From the last na ano sa nanalo tapos sa --- ang Otso Diretso, napunta sa lababo.

**PASTOR QUIBOLOY:** Even without Bikoy siguro, because of the...

**PRESIDENT DUTERTE:** Surveys na...

**PASTOR QUIBOLOY:** 'Yung surveys because of what you have done in three years. Kahit wala 'yung Bikoy.

**PRESIDENT DUTERTE:** Hindi maintindihan talaga nitong mga opposition na I was without money and without --- I was --- I won because I was the only one carrying the message correctly. Corruption, drugs, 'yun 'yan eh. Hindi ma --- mga babae hindi makalakad.

**PASTOR QUIBOLOY:** Clamor ng tao 'yan.

**PRESIDENT DUTERTE:** So sabi ko, I will return the streets to you. I will return the highways to you. Maglakad ka diyan sa...

**PASTOR QUIBOLOY:** 'Yun ang hindi nila nakuha.

**PRESIDENT DUTERTE:** Kaya sabi ko --- kayo, pagka ganun, sinabi ko, Bulacan, ganun. Sinabi ko na dito na makalakad ang mga taong-bayan at wala namang nakapinsala na nae-experience nila, walang holdup.

Ngayon, kung gawain mo 'yan, susmaryosep, magloko ka ng ibang tao, huwag ang presidente. 'Pag niloko mo ako, hiniya mo ako, hahanapin kita. Dito ako mismo noon sa Davao, ako --- ako mismo ang...

Doon, mag-utos na lang ako. Kaya hindi --- hindi panahon ngayon sa kriminal eh. Kung kayong mga kriminal, maghanap muna kayo ng pagkitaan na ano --- not drugs, not 'yang holdup-holdup. Kasi mamamatay talaga kayo. Maawa lang ako sa mga anak ninyo, sa totoo lang.

Tapos 'yung --- kung maka-holdup kayo, makapagnakaw kayo, makikita ko kayo diyan sa sabungan, akala mo kung sino kayong...

Tapos kung magpunta ng mga karaoke-karaoke. Hindi naman binibigay ninyo sa pamilya ninyo. Sino ba ang pamilyang holdaper na nakapagtapos ang mga anak kasi 'yung pera na hinoldup (holdup) mo binigay mo sa pamilya mo? Kalokohan. Gamitin lang rin niya ang pera sa kalokohan.

Kung may problema kayo sa mundong ito, sabihin mo lang tatapusin ko para walang problema. Eh kung lokohin mo ako, sinabi ko na sa inyo noon eh, maniwala kayo sa akin. Kasi akala ninyo mayor lang ako ng isang bayan dito sa Mindanao.

Maniwala kayo kay malapit ako sa Diyos, tingnan niyo si Pastor o. [applause] Magsabi man ang Diyos, "Inspiring man ito si Rody uy, sige na lang patawarin na lang natin." Ganun 'yan.

**PASTOR QUIBOLOY:** 'Yun ang hindi nila nakuha, Mayor, 'yung gusto ng tao na mangyari. Kasi sila may message sila pero kanila. Your message is what the people wants kaya pasok.

**PRESIDENT DUTERTE:** 'Yung mga infrastructure program... Gawain mo na lang muna tapos nandiyan na, bago mauna ang yabang. Ayon, kanila nauna 'yung hangin eh.

**PASTOR QUIBOLOY:** Kaya 'yung si --- 'yung ano mo, Mayor, 'yung senador mo na si Ronald Bato number one sa Manila because of...

**PRESIDENT DUTERTE:** Would you believe it number one? Police ha. You read the --- what's the basis? What underlines the sentiment of the people? It's because they are tired of being...

Alam mo, under stress ka. Kagaya --- kagaya namin noon estudyante kami. Maglakad kami diyan sa San Marcelo, under stress kami, mga lasing na mga estudyante. Kaya ako nagdala ako --- kuha ako ng baril, sige. 'Yan lang ang equalizer mo. You mess up with me, I'll shoot you.

Under stress 'yung tao eh. Hindi ka makapag --- makapaglakad diyan sa Intramuros. Huwag na 'yun pakialaman. Kung wala kayong...

**PASTOR QUIBOLOY:** So ano mang sira nila sa iyo, ano man 'yung issue nila sa iyo, kung ano-anong kuwan, pera kung ano. But your rating remains 86, 87. Hindi nagbaba.

**PRESIDENT DUTERTE:** Alam mo, Pastor. Mabuti't rin nandito --- napunta ako itong gaging ito. and you can ask any congressman, senator, Cabinet member, director, sa opisina ko po in my --- on my table, sa Office of the President pati sa bahay, walang transaction sa gobyerno. Kagaya niyan transaction --- na government o involving public or private-public, PPP, na dumadating sa --- 'yung transaction, basta pera.

Automatic 'yan hindi umaabot sa opisina ko 'yan. It begins and ends with the Cabinet member. Tugade, he has plenty of money. He has built so many airports.

O si ano --- si Villar is spectacular. You just wait. Ayaw ko mag-ano but things will improve maybe God willing, December smooth sailing na. You don't have to worry about traffic. Cubao and Makati is just about five minutes away.

Kasi sa itaas na lang eh. Ginawa namin sa itaas kay dito wala na talaga eh. Mabuti't na lang nagpunta ako ng China. China nagtulong, 'yung Chico Dam. It's in a question mark because of bureaucratic red tape rin. Kaya I intend to stay there for the whole of the week just to think of ways how to...

But I would be more than --- not really despotic but I will try to --- talagang... Kung ayaw ninyo --- dadalhin ko sa inyo eh. I'll force it to upon you. Ganun. Nabasa ko kanina sa newspaper that they are --- it will take until October 'yung investigation.

You are being robbed of billions and you want me to wait until --- anong klase yan? The next working day. Marami ang NBI, 'yan pati 'yung itong dito sa probinsiya, 'yung pyramiding, I told you to...

If you do it, I will take full legal responsibility. You do not have to worry. That's a --- kaya nag-improve kayo, hindi kayo natatakot. You can enforce the law. I will go to jail. Matagal pa naman 'yan, eh 'di sige.

And if they cannot file it now because I have to work in Malacañan, that's the mandate of the people. So by the time natapos ito, tayo naman ang mag-NPA sa bukid para...

Kasi dito, damned if you do, damned if you don't. If you do not do anything, if you do not act, the country will drown because of --- you have to do it. The --- talagang... Now if you --- if you don't. You do it, you don't do it, gusto ka kulungin.

But for the record, I never ordered the killing of a particular person. Wala akong sinabi na: Patayin mo 'yan si Pedro Santos, kasi 'yan drug pusher, drug ex --- importer. What I said to them: Destroy the apparatus of the drug organization.

Alam na ng pulis 'yan. When they destroy, they would go out, really destroy and then make arrest. And if you resist violently --- nag-aral na 'yan sa academy --- that they will shoot you instead of them dying for you.

Pero kung sabihin mo may inutusan ako na --- hindi ko gawin 'yan because sa karami mong --- iisa-isahin mo nang ganun. Let the law enforcement do its duty. Perform first in accordance with law. Do not kill. But if you are in the process of losing your life, idiot you have to do it first.

Ay sinabi ko sa mga pulis --- tanungin mo mga pulis diyan. Sinabi ko mayor ako dito, magbarilan tapos makita kita sa hospital nabarilan ka ng gangster, ikaw ang sipain ko.

You know, ako --- ito na lang kasi I cannot consume the night just to magyabang sa inyo. Gawain mo lang kung ano 'yung tama. The law will not tell you, common sense will tell you.

Gawain mo lang 'yung tama, 'yung tama lang. Wala na tayong problema. Wala ka talagang problema sa akin. Just do it right --- there are rules to be followed. All you have to do is to follow the rules to avoid a headache.

So ano ba ang problema natin? Never mind about the criticism. Diyan sa media, 'yung sa matrix, 'yung sa matrix puro bayad 'yan, maniwala kayo. 'Yan si [Tordesillas?]. Hesus, sige lang hingi kay may cancer siya. Hanggang ngayon buhay pa. Lord, ano ba ang desisyon mo diyan?

Kaya ako --- I am sure, all of you will pray for her to get well. I will also pray but I have my own prayer. Huwag na lang...

**PASTOR QUIBOLOY:** Mayor, how do you unwind now that you are a President? How do you unwind? You know, the stress.

**PRESIDENT DUTERTE:** Alam mo, ikaw... *[unclear]* May kumot man rin ako doon, dalawa. But I --- sa ngayon sa edad ko, maglaro-laro ng baril. Pareho man tayo o 'di kaya motor. Hindi naman ako maka-motor --- nililinis ko na lang. Oo ganun kami.

'Yang ano --- nag-momotor. Maaga 'yan mag-kape. Mag-kape kami, magtinginan. Gaganun lang kami. Ito totoo talaga 'to, halos lahat magtawa 'yan.

Pati 'yang langaw magdapo.

Ang hinahanap ko 'yung kama ko. 'Yung kama ko, diyan na lumaki 'yung --- lahat man ng mga apo ko nakatulog diyan. 'Yan ang pinaka-maangsot na kama na --- pero pinakamasarap amoyin para sa akin. 'Yan ang ano ko, comfort zone ko.

**PASTOR QUIBOLOY:** 'Yung security blanket, nandun pa rin?

**PRESIDENT DUTERTE:** Oo, brown na. Alam ni Pastor 'yan. You must --- obviously you must have come across Peanuts? 'Yung si Linus? Si Charlie Brown? Totoo 'yan, totoo 'yan. 'Yung si Linus, sige dala-dala ng security blanket niya. Ako 'pag walang blanket...

Sige, okay lang.

**SIS. CARDONA:** There's a question here, Mr. President. Do you see your children following in your footsteps in the presidency? Will it be Sara in the near future?

**PRESIDENT DUTERTE:** I am stating publicly now that I am discouraging my daughter to run for any national office. Maawa kasi ako. It's an office --- entitlement of ano, honor, lahat.

Pero sabihin ko kay Inday pati kay Pulong, it doesn't pay. Huwag 'Day magdusa ka. I have to swallow 'yung ginagawa sa inyo. Nakita mo 'pag ginagawa akong mga --- ng mga drug pusher.

As long as we have politicians like Trillanes, itong mga Magdalo. Akala mo kung sila lang rin ang marunong. They think they are the only patriots of this country. 'Yung mga Otso Diretso. You better...

Huwag na lang. Pagka ayaw mo ng mayor, 'di kausapin mo si --- dalawa. Kung gusto ng tao. The best thing is really to feel the pulse of the community. If you think that they are already in the midst of --- matagal na kasi ang Duterte eh.

And as the Ecclesiastes 3 of the Bible says, there is always a time for everything. So maski gaano kami kasikat na pamilya, there will always be a time to fade. I maybe the more brighter than the lights here shining as President but I will grow dim three years from now.

There's always a time of plenty and a time of want; time to be happy and a time for sorrow; a time to be worldly --- women, drinking, but a time to grow old and settle down; and a time to live, to be born, and a time to die.

Sabihin ko kay --- huwag 'Day, wala kang ma-ano. Overall, wala kang makukuha. Ibigay mo na lang sa medyo...

As long as we have these politicians 'yung mga Otso Diretso, avoid ninyo 'yung presidency. Hindi ako --- hindi na ako bale kasi kaya ko talagang...

Kita mo ang --- my behavior in --- as a public official does not erase the fact that I am a politician. And as a politician I get to be --- reviled, screwed up, lahat na. So ang bina --- ang 'pag resbak ko rin, bastos rin. But I --- you know Davaoeños that I'm not that. It's only when --- they never really liked me and the church.

Kaya 'yung mga pari 'yan pati mga madre magkikita sila kay --- sila nagdala nila Bikoy eh, mga pari pati madre. Only to be an idiot also like, and the likes of Bikoy. Sila 'yang dala-dala doon sa...

So 'yung ano ko sa Catholic, hindi ko lang masabi dito but in private, I'd tell Pastor. And siya na lang ang --- I'd leave --- I leave there to him to --- liberty to... Basta ako may hinakit ako sa mga taong who came here to colonize and subjugated us.

And it was a --- and even if you... Tanungin mo 'yan si Evasco, 'yung pari na 'yung nandiyan sa akin na... But he lost the elections sa Bohol. Marami rin siguro... I don't know. I cannot know what was the...

Pero 'yung akala mo na pagdating ni Magellan, we became overnight religious people. When Magellan came down and planted the cross, converting the natives, some of them are Muslims already, converted them. They had to endure what you see in the Medieval times.

Gaya noon ng ano itong --- 'yung witchcraft. Kawawa 'yung mga tao noon. Na kung may nunal ka o 'yung birthmark, ah patay. You will be considered a witch and they will skin you alive. That part of the --- pero 'yung thinking nila ganun rin. If you think that Padre Damaso is gone, you are mistaken. Padre Damaso is alive and kicking.

For those who --- bahala kayo. Basta sinabi ko sa inyo, it is not a good religion. If you do not believe me, fine. Kasi ako mahirap rin ako mag-ano because all the time you have to focus, reverence eh. But when you start to analyze things and how these things came over.

If you only try to read --- if you know how to read, you would know the truth. That God never said, "Go out and destroy nations, tribes and everything to convert them." Kaya ang incongruity natin is we celebrate Independence Day.

Ang tingin ko kay Rizal, talagang God, he's my hero. And others also, Filipinos who died for the... And we --- then we go to another place to face the fools who killed Rizal.

Rizal stood against the Roman Catholic Church. He died for our country, he was shot. And then these Filipinos will go to the church and kneel down. Maski sinong santo diyan nag --- tapos pray and pay homage for their presence here, for the existing faith and yet we...

Kaya may gusto akong sabihin. O sabihin ko na lang. Five hundred years of Christianity ngayon tanong sila --- pari, hindi lahat. Anong plano? Wala akong plano. Why should I celebrate the coming of imperialism to my country?

They brought religion, fine. But you didn't have to subjugate my country and made my --- and made my fellow brothers and sisters under the yoke of imperialism for four hundred years. Kaya 'yan, kita mo. They're being treated as basura.

It's been there since 20 --- kaya sabi ko I'll give you until May 15. I will bring... Alam mo, you Filipinos. Hindi ninyo talaga ako kilala. Ito pang taga-Maynila na media, paka-yabang. Too presumptuous. Duterte said ganyan, said --- nagyabang pa na that he will go to war.

Alam mo hindi ako kagaya sa inyong bobo --- 'yung... Ganito 'yan eh. Sabi ko, look for a ship, naturally commercial ship. Then load the containers of garbage, bring it to the territorial waters of Canada as near as you can get, even to the port. Ihulog ninyo diyan sa pantalan kung ayaw nilang tanggapin. Kanilang basura 'yan eh.

**PRESIDENT DUTERTE:** Ngayon kung ayaw, walang magkasa, sabi ko, I will ask the Navy --- Philippine Navy ko to load the containers as a matter of principle. Bring it to Canada at isauli ninyo.

Ayaw nilang tanggapin. Then, jettison it. Ihulog ninyo doon sa dagat nila. Kanilang dagat, huwag ang dagat natin. Then naturally magpunta 'yung Royal Mounted Police, huhulihin talaga sila. Magalit 'yung mga tao then they will start to arrest and gang up on my navy. So I will say to my navy, if you are threatened, fire. So then, we go to war.

Eh kung navy --- ang navy ko, papatay na lang ako ng isang [unclear]. Sabihin ko talaga, "I'll go to war."

Kaya ganun ang sequence ng... Kayong mga utak na hanggang tanggap nang tanggap lang kayo ng basura diyan sa mga... Not me.

**PASTOR QUIBOLOY:** Naisuli na Mayor?

**PRESIDENT DUTERTE.** Ewan ko. Siguro. Bahala na butasan ng Russia 'yan diyan sa bandang Guam siguro. Mahina man 'yang mga barko. Hindi --- hindi ako mag pa-ano Pastor 'yung ganun na...

**PASTOR QUIBOLOY:** Grabe naman, dumping ground tayo ng basura.

**PRESIDENT DUTERTE:** Doon sa ibang presidente pero huwag mong gawain sa akin.

'Yung si galit-galit. Sino ka ba? O 'di ngayon, pumupunta sila diyan sa ano... Sabi, "Hindi ba mainit ang ulo ng Presidente ninyo?" Lagi. T\*\*\* i\*\*\*\* 'yan.

Ngayon, 'ika nga 'yung Godfather, the movie, it's respect. Son, it is respect. Respetuhin mo ako, respetuhin kita. Bastusin mo ako, bastusin kita. Babuyin mo ako, gawain kitang piggery.

Ayaw ko. Ayaw ko kay Inday, sabi ko. Diyan ka lang, dito ka lang sa Davao 'Day. Kailangan ka ng tao, maintain the... I'm not saying that it is only the Dutertes who can maintain the kind of environment that we are enjoying now. Far from it actually.

Pero, sabi ko si Inday has shown his --- her mettle and okay kaya man niya. For want to --- anything to do. Pero kung --- huwag 'yung presidente, bigay mo 'yan sa mga... Wala ka talaga. At the end of the day, maraming papel, trabaho, pagkabukas you face an angry --- paid hacks. Hindi mo malaman bakit ka inatake na lang bigla and misquoted and sila 'yung nag --- sila 'yung nag-una ng fake news.

'Yung pagtakbo ko... Ang simbahan talaga pagtakbo ko, Pastor, ayaw talaga nila because 'yung mga bishops diyan are the bishops of the elite or tawag nila the so-called 400 of society.

Sinabi ko sa inyo noon, Pilipino, ang corruption maliit lang 'yan dito sa baba. Ang pinaka-mataas na corruption nasa itaas. Hintayin ninyo ang report kay nire-review namin 'yung...

Manila Gas and company 'yung --- was given I think 2077. And ang tubig in that contract will not be recognized as a natural resource. At sa kanila, if the operation until 2077 will be disrupted, then the government and the people of the Philippines will pay the expected profits that they have lost.

Kaya nung nabasa ko, sabi ko hindi ko ito i-release muna kasi warningan (warning) ko muna 'yung diyan sa itaas, mga generals na medyo masama 'to.

The full report lalabas ito. Ayala eh. Alam mo kasi dito sa Asia, 'yung mga Ayala sa --- 'yung parang Ayala nila sa Malaysia, dito sa Indonesia pati Ayala natin nag-kumbuya 'yan.

So, negosyo 'yan. Kaya sabi nga ni Drilon, be careful reviewing the contracts, we might end up paying so many [damages?]. Sabi ko, no I will not pay, I will not pay. We will rot in hell, I will not pay. Kalokohan 'yan.

So, pagka-upo --- sabi ko mabasa ito ng mga sundalo, mag-coup d'état 'yan tingnan ninyo. Na-warningan (warning) ko 'yan. Pag na-review itong lahat ng contracts ni --- kay PNoy, there will be a disturbance.

**PASTOR QUIBOLOY:** So biased mayor sa ano 'no --- against the...

**PRESIDENT DUTERTE:** Wala talaga. Sabi ko 'yung corruption nasa taas 'yan, wala sa baba. Sa Ayala. I'm not saying that it's a bad thing now but kayo 'yung mga mayaman, papahirapan sa mahirap.

But as long as I'm sitting as President, what you can do with the country kung wala na ako but I will correct everything. And if you choose to do it wrong again, bahala kayo. Then we leave it to the Filipino people to decide what they want to do.

'Yung Church, centennial now, 500 years of Christianity. Really? What's so special? These are the --- I just keep it confidential. Ba't ako mag-celebrate ng...? I celebrate the start of the subjugation of my country for 400 years? You must be kidding.

I celebrate the day when the heroes of my country were slaughtered. Kaya nga itong Pilipino noong nawala siya sa ano niya --- incongruity.

First, we go --- we revere the --- we treat our heroes for fighting the church and the abuses of the priest. Mga gwardiya sibil.

Then after that we go to Quiapo, ito namang Pilipino kasi madala eh lalo nang... Dala, pagsabi ng pari doon, then we revere also.

We revere the conquistadores. Not me. So we do not celebrate anything. Why would we celebrate? Coming of Christianity. That started our travails and agony and sorrow, mag-celebrate ako?

Celebrate it in your sector, maybe the biggest sector in the Philippines. Me, I have my own God. God who is all-knowing, who's kind. God who does not create hell, does not create heaven. He did not create human beings just to be thrown to hell or to enjoy heaven.

My God says that you will live in a --- any place where somewhere in the universe. Maybe that's heaven. Hell, maybe a... I don't know. You don't stop moving. You are... There's no kind --- there's no clear punishment actually.

But hell is a... You say that something unpleasant for the human soul. Wala pa talaga tayong nakapunta doon. Pero 'yung good and evil totoo 'yan.

I do --- I am not the Lucifer because I do not don gowns. Si Lucifer nakasuot man ng gown 'yan, overcoat. All weather.

Still or...

**SIS. CARDONA:** Almost naman, nasabi niyo na po Mr. President. Thank you, sir.

**PRESIDENT DUTERTE:** We can have it done --- maybe... When I'm free, regular...

**PASTOR QUIBOLOY:** Yes, Mayor.

**PRESIDENT DUTERTE:** Usually, Saturday.

**PASTOR QUIBOLOY:** So we will expect you to be a regular visitor of "Give Us This Day."

**PRESIDENT DUTERTE:** Yes. You can reserve. *[applause]*

You know, Pastor with such beautiful audience and ladies clapping your hands, who would not be inspired to sit here? *[applause]* Tapos kantahan ka pa. Pagkatapos niyan kain doon. Sarap pa pagkain. Itong mga feminists, sabihan mga babae o. Bakit? Kung mag-clap itong mga lalake --- mag-enjoy ako? Umalis kayo diyan. Totoo 'yan. Wala akong barkada na lalaki. Hindi ko --- magkain ako 'yung mag-isa, ayaw ko magharap ng... *[laughter]*

When you eat, you want to be pleasant, both in appetite and... Maglagay ka ng mukha diyan na brusko. Ito pakainin ka 'di ba mabukog ka, sige. *[laughter]* Get stuck there in your throat.

Bakit sa... Kasi maganda ang girls. I mean girls should be beautiful. And you should be complimented. Totoo 'yan. It's not wrong. *[applause]* And when a guy says to you, "You're beautiful." Just say, "Thank you. You're like our mayor. He also said that." Totoo man 'yan.

**PASTOR QUIBOLOY:** Mayor, your final message before we end?

**PRESIDENT DUTERTE:** Well, there are so many things I'd like to --- to unburden both state policy, problems of the Philippines, the world order is not so good.

Do not ever think that the suspension of the processing for citizenship and special visas and all of these, there's a deeper meaning to that. It doesn't have to be my.... I do not have a problem with Trump, that much I respect him. Kay Obama, wala akong respeto. Eh tarantado eh.

So but we are ready to cooperate. This I have to say, I will not go to war with anybody against China because that will be the end of the world. It will really kill mankind or at least it will dry up this region, kung pumutok 'yang parang Nagasaki, Hiroshima.

Tsaka hindi natin kaya ang China. And besides, China is good. Well, America has been helpful. In the purchase of arms, we have a bad experience but they have a new policy now. We're going to [reconsider?].

We'll buy if we think we need that kind of particular... But I'd like to say to the Americans and to the officials sa --- in Washington, when you deprived us of the arms, we started going around scouting for cheaper and better arms. And there were contracts already, memorandum of intent --- intent to buy something like that. So we will not impair that obligations.

This is not to... Because Trump has just issued a --- that you are prohibited to buy. I'm sorry but ganito 'yan eh. When we needed, in the hour of our need, we needed the arms, Russia and China gave it to us practically free.

Then, you know I'm a Filipino. You have to have a sense of gratitude. At least honor the contract. Nothing else.

You do not have to praise China and say that you're going to side with America and a war. No, because America and China, alam nila a war is the most useless thing in their arsenal. Tapos talaga ang mundo nito.

When they say that, if you blow it all, it is 100 times bigger than Hiroshima and Nagasaki. You think we will survive? See you in heaven.

Wala, 100 times, 100 times --- let us put this way, 10 times, 10,000 times more powerful. At saka hindi lang isa ang... Noon ang America lang man. Ito Russia puputok 'yan. China puputok, South Korea puputok, North Korea has the arms, Iran has the arms, France has the arms, Italy has the arms, Britain has the arms, Russia. Where do you get --- where do you go for your refuge? Where do you seek sanctuary?

It's a useless --- war it's a useless thing. I will not...

**PASTOR QUIBOLOY:** So we are in good terms Mayor with China?

**PRESIDENT DUTERTE:** China, sinabi ko. When I went to... The last time. I had a meeting with Mr. Xi Jinping together with my Cabinet members. Most of them are military men lahat ng --- halos lahat ng Cabinet members ko, militar. I'll explain later kung bakit. Next time.

Tapos 'yung sila. Not --- I was not angry but sinabi ko, "Did I not tell you Mr. President that I will never allow the Americans to set foot on any of the islands controlled by the Philippines? That we will not start any war and that I will never allow American weapons to be stationed in that island?"

So why are you surrounding my island with so many ships? You're wasting your gasoline. That's my exact words. You're wasting [my?] gasoline. You might as well give it to us.

I told you I will not allow. As long as I'm president, any American to set foot on that Pag-asa Island. Because I know that it will create really trouble. And I will not allow their arms. If it's a Philippine government arms given to us by America, well that's another story. If you want, you can give us a better one.

So that is how it is. I was quite frank with the... Talagang sinabi ko sa kanya. Sinabi ko na sa iyo, I will not. You have my word of honor.

Ayan medyo... Okay na siguro kasi wala namang reklamo 'yung mga fishermen. Do not deprive them because you know that we are poor. You prohibit us, you will just create the inflation to go higher.

I was [not?] frank with China. Lalo na siguro kung sa iba. 'Yung Canada? Susmaryosep. They never really attempted to talk to me. Who are you to make my country a garbage dump?

**PASTOR QUIBOLOY:** This was dumped Mayor, not in your term but the previous administration?

**PRESIDENT DUTERTE:** No, no. And I will not allow it and anybody --- any Customs employee o opisyal. 'Pag pumirma ka sa release papers niyan, sabihin mo hindi niyo alam, you go out or I will even arrest you.

Toxic 'yan eh. Hospital waste pati 'yung plastic, those are toxic materials. Plastic is a toxic material. The ones that they use in the chips are toxic materials. Well, this time magpagawa ako ng container kasing laki ng kabaong mo. Ihulog kita diyan sa dagat.

Eh karami ko nang hinulog wala mang nakita ng iba. Do not throw there when there is the sun --- in the Manila Bay still shining. Makikita mo ang sun kasi diyan maganda 'yan, lumulubog sa tubig. So when it is there then that's the time that you throw the container.

**SIS. CARDONA:** Thank you so much, Mr. President. Thank you indeed. Are you blessed that the President is here tonight? *[applause]* Thank you. Thank you Father. Bless you, Father. Pastor, thank you.

Once again, thank you Mr. President. I know this is just the first of so many guestings here on Give Us This Day.

And so indeed, blessed are we Filipinos because we have just heard our beloved President speak to us. And we have seen his heart and how it goes out to all of us to move this country forward. And we also thankful to our beloved Pastor for making this night possible Pastor, for the President to be here.

And so whatever prayer request you may have, whatever need right now, especially for our special prayer for the President and the country. I give all

the time, to our beloved Pastor, Pastor Apollo C. Quiboloy as he leads us in prayer.

**PASTOR QUIBOLOY:** Before we end, we would like to thank the Father Almighty for the honor and the visit of our beloved President, our very own. We want him to know that the congregation of the Kingdom is always praying for your good health, for your security, for your long life, and the continuous success of your crusade that you have promised the Filipino people and that exactly that is what you're doing and the work ethics that the Filipino people have really appreciated in doing the promise you had made them. In just over three years, the Philippines has changed into what every Filipino wanted it to be.

And so we thank the Father for that, Mr. President. And that the Father will always guide you, bless you, and always give you the wisdom to lead our people into that place where we are now and more so in the three years to come of your presidency.

So we thank the Almighty Father for that. And you will always have our support and our prayers for you, all the days of your life, you and your family. May the Father bless you now and forever. Amen. *[applause]*

**--- END ---**
