**SPEECH OF PRESIDENT RODRIGO ROA DUTERTE DURING THE 2017 PHILIPPINE
QUALITY AWARD AND CONFERMENT CEREMONY**

[Delivered at Heroes Hall, Malacañan Palace | 24 October 2018]

Kindly sit down. Salamat sa kortesiya ninyo.

I have two pages. I will read it and if you'd allow me I'd like to just also add a few words. This one not from this speech from --- the things that I'd like to convey to you. Take advantage of the moment.

Executive Secretary Salvador Medialdea; Trade and Industry Secretary Ramon Lopez; Atty. Engelbert Caronan, Philippine Quality Award Administrator for the Public Sector; Mr. Warren Enteria, Philippine Quality Award Administrator for the Private Sector; the distinguished 2015-2017 Philippine Quality Awardees; fellow workers in government; ladies and gentlemen

It is my pleasure to be with you today as we honor the winners of the Philippine Quality Award for the years 2015 to 2017.

The PQA was established two decades ago to recognize organizations that continuously improve the quality of their processes, goods and services, and serve as example to other organizations.

Today, we are honoring 16 awardees of the Recognitions for Proficiency and Commitment to Quality Management for the years 2015 to 2017. I congratulate each of these organizations for their excellence in quality management and overall organizational performance.

I enjoin all of you to continue being an inspiration to your respective sectors and industries. Appreciate the value of sharing your best practices so that other organizations may learn and reach their full potentials.

I commend the organize, organize, organizer, organi, organi [laughter] --- conscious kasi ako sa itim ko na mukha puro [laughter] --- organizers and recipients of the PQA for their commitment to organizational efficiency across various sectors. Know that your efforts toward performance excellence is aligned with the government's efforts to make our country more globally competitive.

We are grateful to Presidents Ramos and Arroyo for their integral role and continuing guidance in the promotion and development of the values and advocacies of the PQA.

As we come together to recognize the accomplishments of our awardees, I urge each of you to scale up your efforts and be more aggressive in promoting firm-level competitiveness in your respective industries.

Together, let us work towards achievements of our sustainable development goals for a stronger economy and a brighter future for the Filipino people.

Congratulations to the winners. Mabuhay kayong lahat! [applause]

Now, sabi ko lang na magtagal itong sunburn ko ewan ko kung bakit baka karma na rin. [laughter] Anyway ang --- policewoman lang kasi ang nag-ano sa akin ha [laughter] hindi 'yung aide ko.

Nasaan na ba 'yung g***? [laughter] Hindi kay baka mali-mali 'yung... Ah hindi si ano si --- ito... Ang pumalit kay Bong, tumindig ka nga. Ikaw, ikaw, ikaw, ikaw. [applause] Harap ka doon sa kanila. Tumindig ka. Anong bang klaseng pulis ito kapitan pa? [applause]

Alam mo despite or in spite of the excellence of the Filipino in almost all fields, maski ano basta Pilipino ang pumasok mahusay talaga 'yan.

The values, the basic fundamentals are there, but I'm telling you now as frank as I can ever be to anybody that we will never... You might have the talent, you might have the industry and you might have the innovative or an inventive --- inventive mind --- but there is one, two rather, basic ingredients na ang wala ngayon sa ating gobyerno.

And then I would say na even if we are given about five years ahead to cope up with the economic activity of Indonesia, Malaysia and Brunei, we would never really be there in that span of time.

But also let me just disabuse the minds of many that right after the Second World War when nations were rehabilitating, repairing their nations and started to scour the earth for materials in nation-building iron, oils and everything, merong ibinigay ang Panginoong Diyos sa ibang lugar sa Southeast Asia.

I really cannot answer my question nor your question on the subject. But it has something to do with oil. In a few years, Indonesia was able to struck it. Malaysia had theirs and Brunei aplenty.

Ang problema ang Philippines wala. And if you try just to move your eyes from left to right, up and down, makita ninyo na it's all about oil. When you go out, it's oil. The roads that you travel on is oil. The buildings --- lahat ito kasi is a product of machines, product of inventions. Modern machines, robotics and all.

But this cannot really be possible without oil. Because oil is the source and of course the sun and others but wind power. They cannot sustain an economic movement to reach our desired potential.

Wala tayo eh. And so that every time there is an increase of oil talagang you just count by hours and there you are the oil firms, pumping stations would announce an increase. And if suddenly per chance there is a reduce of the prices it's because there's more oil or at least the prices are being controlled at least cheaper.

And then this is what happened now because one is we don't have it, second is we import it. And it --- it's about... I don't know of how it would eat into our gross domestic product. How it would affect, impact on the economy. Wala tayo niyan eh.

And so we have --- Indonesia has the buffer. They can increase, maintain the prices kasi may reserba sila. So with Malaysia, Indonesia and the Middle East they are I said awash with oil. Tayo timpla-timpla lang. And so I'm not saying that we are not responsible for the inflation because

when you are here you swallow everything. Sa panahon mo eh. It's not because we are lacking or there's a dearth of talent in government.

I have assembled all of the talents available, low-key but brilliant minds. All of them are... Pati itong kaharap kong si Attorney Quitain, Undersecretary sa... They are all valedictorians. Kababata kami niyan. Si Dominguez.

Na-expelled kasi ako sa Ateneo. Lumipat ako sa eskwelahan ni Willy [laughter] And Melchor was --- Quitain. He was the valedictorian.

Then I got expelled again. [laughter] I went to Digos, and Digos munisipyo pa 'yan. And I finally graduated after seven years. Dureza was the valedictorian and they were all with me. Tugade, the valedictorian of our class sa law school. Lahat 'yan sila puro valedictorian.

'Yun ba namang inflation na 'yan kung sa mga utak na 'yan hindi kaya, hindi talaga kaya eh. Wala --- wala tayong magawa kasi it --- for our... Our trade balance is not really even. We pay more buying outside than we export. So import-export natin there's a trade balance of --- hindi naman malaki but it's always at the losing end. Lahat 'yan.

And the --- the uncertainty of times. But I'd tell you know and this you will remember when I'm gone, 'pag wala tayong law and order at we cannot stop graft and corruption in the government, there is no way na aakyat tayo. Maniwala kayo sa akin. [applause]

I've been there on the ground as city mayor for 23 years. I've been a congressman, I've been a vice mayor to my daughter. Now I am President, I would really say that we have to start with the basic requirements of being a place where business can thrive.

In Mindanao, it's a food basket of the Philippines. Talagang it's a fertile land. Unlike Luzon and the Visayas, you get hit by typhoons anywhere at any time. Samar is the window of the --- of the --- our Pacific. Nandiyan sila. So Bicol ganun rin.

So in Mindanao, wala namang gulo pero there's about three fronts that I am con --- four as a matter of fact. Reduced siguro mga three.

We have two revolutions there. One is territorial kagaya ni Murad pati ni Misuari. They are correct. They were the originals of Mindanao.

Long before 1521, when Magellan landed in the shores of Leyte, Islam was already thriving in Mindanao. Kaya lahat doon mga tao Moro, Maranao, Maguindanao, Iranun, Sama, the native Muslims of Davao, Kagan, then you have the Tausug and you have the Yakans. That's the main tribes there.

Walang Bisaya doon. The Visayans are called actually Sugbuanon. So if you talk to a guy na taga-Cebu talaga, he would say, "I would go home to Sugbu tomorrow." Hiligaynon is the...

Those are the distribution of tribes before Magellan. So when Magellan came to the Philippines, he started to conquer the lands brutally. That's always the case of conversions of a race.

And for 400 years we were under them. They took advantage of our natural resources, lived off the fat of the land, and they enjoyed the spices and everything. We remained a colony. And after that, the Americans.

The Americans came. They introduced the Torrens system, that's the titling of the land, and cut it into pieces 'yung mga homestead. 'Yung mga homestead noon 'yung mga ano mga cadastral, forgetting that there are or were originals there and that is the Moro people. It continued until today. So that so much so that the Imperial Manila, which they call rightly so, all decisions must emanate from Manila. At that time 400 years ago, wala silang pakialam and when Mindanao was divided, the Bureau of Lands, maybe the only bureau.

When they started to carve out Mindanao, it was really empty and it was a good decision especially with the Americans because they could not find workers. They were mostly Protestant and a few of the Roman Catholic missionaries.

But they resisted and they were successful. Why? Why? Because may poste sila. Anong poste nila? Islam. Kaya hang --- inabot hanggang ngayon. And thousands have been killed and we are still at it.

And so I tried to --- as I promised in the campaign, I tried to talk to the leadership of those revolutionary. I said I would talk to Murad and Misuari and rightly so we were able to pass the BOL.

As to the question of it will also pass the plebiscite, that's something which I cannot answer. But mayroon tayong ibinigay na options. Nur Misuari, to his credit and I'm listening --- I'm sure he's listening right now. Nur, salamat for just being patient.

Sabi niya, "Rod I will not add to your troubles. I'll just keep quiet but you have to solve this problem one way or the other, anyhow, kailangan gawin mo." I said, "Yes, maybe before I step out of my office."

Ang problema dito the other revolution is driven by evil. And they are the Abu Sayyaf at itong mga ISIS. These crazy people they know nothing except to kill and destroy and to die. So when they go to battle, they really want to die. But believe me because my mother is a half Maranao. A little bit of the culture. My grandfather was a --- on the mother side --- was a Chinese. Tatay ko Cebuano.

So 'yun ang itsura ng Mindanao. Ito 'yung Abu Sayyaf. They know nothing except evil, decapitate people in front of camera. Mass insanity. And it can happen --- it happened to Germany. It can really create --- create you off your rockers lahat.

And there's the drug front. It's putting everyone on the world today on the edge. And you --- for you guys you have been to America and other countries, look at America now.

When they were really criticizing me I said, "Well, just maybe lay off for a few more years. And to your chagrin, you will realize that the horror will visit your country." And it cannot be stopped anymore. I really do not know how they would do it.

For as long as America can --- stays like libertarians and human rights and everything, they cannot solve the problem. It's a --- contagion is almost pandemic in Europe.

Now, they have legalized marijuana. Was it yesterday? It's now okay in America. Actually that is surrender. Medicinal. Well, a lot of even itong mga deadly jellyfish and the plants in our forest and all, they extract the cures about cancer and everything.

But when it is for recreation and eventually you loosen it. I... I... You know, I would --- I would --- I would agree with them if were it not for my experience as a mayor. Even marijuana, you will go into hallucinations and eventually...

Noon pa 'yang raping women, killing people. Ang problema nitong human rights... Ganito, 'tong mga... Sabi nila "Duterte killed 20,000." S***, screw you. I will even kill more.

I will not allow my country to go down the drain. Not during my time. Maghanap na lang kayo or else pray that time will run faster than usual. Hindi ako aatras diyan and it will continue until the last day of my term.

Ang social cost, ang binibilang ng mga p***** i** nila, ang binibilang nila 'yung patay. Hindi nila binibilang 'yung pamilya. The dysfunctional families left behind by the victims of rape, the trauma it leaves to a family when the children are violated, hindi nila nakikita basta kanila ang patay.

P***** i**, para sa akin it's a carcass. I do not... Human body there, you are just a carcass. It's what you are doing to your fellowmen. Sino bang gustong pumatay ng Pilipino? Would you think they --- sabi nila we enjoy and go killing people? Is that we are here for?

But you put my country in jeopardy, talagang yayariin kita. Make no mistake about it. I do not hide it. You destroy my country and I will kill you. You destroy the young, the --- our only asset in this world.

Hindi tayo lahat mayaman. Wala tayong mall na ibigay sa mga anak natin to continue making money. Kaming mga gobyerno, itong mga sundalo, they retire at the age of 56, and maybe Bato got two million because he got the --- pinakamataas.

Pero itong mga sundalo, they retire 'yan mga 700, 800 or even a million. And so after that, wala na silang trabaho or they have to go to work from a general to a --- punta ng United States. They are the chief guards there.

Karamihang mga colonel magpunta ng America magtrabaho manual. Good. Pero kung 'yung may mga sakit na, karamihan ditong mga 'to may tama sa kidney pati liver. It's the training and everything. Drinking, unsanitary, hygiene, that's all it takes.

Ngayon 'pag ito 56 doon na... Okay. I'll give you one four. They will serve the country 30 years. One four, at the age of 56, meron pa 'yang --- kung apat, tatlong anak, may college o may high school pa 'yan.

Doon na niya kunin ang pagkain niya, medisina niya, tuition niya, ang mga bata. 'Yan ang buhay ng... So magpapa-aral tayo ng anak. Why? Just like we how we served our parents.

When she was ailing, I took over. Kasi ako 'yung may medyo may nakapwesto sa buhay na...

So she was ailing for three months, she was in the hospital. Ilagay mo kaya 'yan sa 130 policemen natin --- thousand. Makabayad sila? Where do they get the money for their medicines? And for their daily sustenance?

Kung magkasakit sila, baon nila mga bata. Tuition ng mga bata. Can they ever hope to send somebody a child of theirs to finish law? Which is all in all 10 years? Medicine? Hanggang diyan lang siya.

And they will not go out of that rot and only because some of them are really talented and bright 'yung nakapasok ng PMA. But you read almost every year na anak ng farmer, anak ng sergeant.

Bakit? Iyan bang PMA na 'yan makabayad sa kanilang oxygen? Funeral parlor and the casket and the burial grounds.

Look our OFW. We know there are certain tribes in the Middle East that when you are a slave bought from the slave markets of Africa, or if you are a paid servant, rape is always part of the territory.

I'm telling you frankly now. Alam ko na noon 'yan hindi ko lang sinabi. When I was mayor, I went there to talk to King Fahd for the release of two Davaoeños who were arrested for selling or giving out rosaries.

At I had a one-on-one talk with the --- I was advised by the top adviser in the Palace to talk to a member of the Parliament because I was then a member of Congress --- the 11th Congress.

Sabi niya, "You warn your..." Kasi may reklamo sila na ni-rape sila. Not all. I'm not condemning the Arab race. So there are tribes there na talagang magtrabaho... It's uniform. Three hours of sleep. Kinakain ang basura. Why? Mga leftovers. Hindi mo pa ulam.

Kaya sa totoo lang, maglabas ako, nagbabaon ako ng carne norte. Tanungin mo mga sundalo. Hindi ako kumakain ng iba. Carne norte tapos sardinas, tuyo 'yung sa bote. Iyan ang kinakain. Hindi ako nag-ano.

Anak rin ako ng mahirap. Hindi ako sanay ng ano. Kaya kong bilhin 'yan. Ang problema ang dila ko ang ayaw. Talagang hindi ako makakain kaya nagdadaldal ako. Kaya puno talaga 'yang eroplano ng pagkain, chicharon.

Oo kasi 'yan kina --- eh 'yang chicharon kina --- inuulam ko 'yan eh, suka. Iyan 'yung istorya ng Pilipino. Hindi kayo nagkakaintindihan dito eh. And they endure rape, human degradation, lahat na, four, five years. 'Yung iba nagkakaliwaan na, 'yung asawa nila dito naiwan.

You know when the mother goes out of the house, that house becomes dysfunctional. 'Pag ang --- ang bahay walang nanay, wala talaga 'yan.

Now, if per chance, ang tatay pati nanay magtrabaho and would just leave the children to their siblings rin na matatanda o sa mga pinsan o sa mga kamag-anak, hindi sa mga silingan. Silingan is the Bisaya for neighbor and they endure that. P***** i** they endure that so that they can send money to the Philippines to sustain the education of their children.

And what happens? Pagbalik niya dito kasi 'yang mga --- t*** i** din --- dini --- hanggang bumigay ang bata. Because they know there's a remittance coming every month. Walang mangyari.

And when they come home, abused, tired, spent, naiwan na 'yung human dignity nila and you can afford to say may human rights. P***** i** mo, sampalin kita. Mag-yawyaw ka sa akin, I'll slap you.

Kaya 'yung prosecutor 'yung maitim na babae, hindi ko nakita eh. Mark my word, sipain ko 'yan in public. T*** i**. Who are you to summon me to ICC? U*** 'tong mga puti. Talagang u*** itong EU.

Kaya sabi ko sa inyo, mas bright tayo diyan. Eh ganito lang katingting 'yung... International law? Hindi nila ako kilala. U***. Hindi ako naging abogado para maging bobo. You know I was a trial prosecutor for nine years, so don't f*** with me.

Mahirap 'yang ganun. Ako 'yung napapaiyak dahil makita ko 'yung ano... Eh ito naman 'pag hinalikan mo pa tuloy, maligaya ang lalaki karaming daldal. Eh gus... There was a campaign in Davao na lahat ng babae hinahalikan ko. So why are you attaching malice to that? You mean to say that if I kiss a woman on the lips, you always think of phallic terms? Ganun ang tao --- you know what's phallic, of course.

Ganun ang mga malisyosa kasi pangit. [laughter] Walang lumiligaw. Bad breath pa ang y***. Ay sus. If you can say one thing bad against me, I can throw you a million times. Hindi ito Duterte ng Danao, noon pa 'yun. Duterte ito ng Mindanao, p***. Iba doon sa amin.

So 'yan. So paano ako mag-atras diyan? The social cost. Children out of school. Broken families. And you worry about a s*** of carcass there. Sinabi ko nang huminto na kayo because you are destroying my country.

You've been fairly warned. I told the law enforcement, the uniformed policeman, all: "destroy the organization," and that means the people kung sino ka. There is no provision in the Bible which says that, "but you must be merciful." Let us learn to separate, government, trabaho ko, from the rest of humanity. That is my...

You know what, I'm telling you. I'll reduce my oath of office into two sentences. My duty says: I swear to preserve this nation. Second, I swear to protect the people, period. Walang iba. Basahin mo sa... And to enforce the law. Why would I enforce the law against criminal --- ah against innocents? It has to be criminals. Eh 'di maghanap kayo ng ibang presidente.

Kasi fiscal pa lang ako nagbabagsakan na 'yung kaso. Corruption, where? Police, nabibili. Dito sa Maynila, nabibili. Huwes, nabibili. I told the Supreme Court, there's one judge here. One thousand cases more, ni isang conviction wala. T*** i** ka judge ka, sarap mong patayin.

Tingnan mo ngayon nangyari sa Customs. Si... Sino 'yun? Guban? I was --- I was dressing up, I was moving around kaya hindi maganda pagka... Maitim pa rin. Hayaan mo.

You judge me not by the color of my cheek, you judge me by my character. If you like it, fine. If not, we go separate ways. You go to heaven. I'll go to hell. Simple lang naman 'yan.

It's a matter of choice. Pero not my country. Kasi isa lang ang bayan ko eh. I cannot afford to play these things. Hindi ako pwede ma... Maybe it could be, maybe it will turn out to be something like this. I do not have the luxury of choices dito sa trabahong ito. Remember that.

Now bakit ngayon sinabi ko, bakit hindi tayo uurong? Nandiyan 'yung ease of --- ay doing business. Nandiyan 'yung anti-graft. Nandiyan na ang lahat. Ang kulang? Ang Pilipino. Why? Because you do not assert your right. Alam ninyo, sabihin lang ninyo, you have access to this place 24 hours a day pagka corruption sa gobyerno. Haharapin kita.

Now tell me, sinong tao na 'yan sa gobyerno ang nangingilkil sa'yo, nanghingi? Tell me who is this guy asking for money, extortion. I will call him here. I'll have him arrested. Kaya si Guban pinaaresto ko. Sabi ko, "Right after the session, you arrest him." Sabi ni Albayalde, "What grounds?" "Just arrest him. Bring him to the NBI. Huwag kayo kasi --- kayo na-mention kayo diyan sa investigation. Bring him to the NBI."

[Tawagan mo nga kung naaresto na ba. Naaresto na?]

P***** i**. Tapos dalhin mo doon sa Cavite, ihulog doon sa... Siya ang nagpapasok, siya ang nag-fake ng ID ng... T*** i**. Para mo... Alam mo, if you do that everyday, p***** i** ginagawa mo akong g*** eh. 'Pag ganun na lang, I would rather resign.

You know I was busy one day fixing the Nayong Pilipino --- isa pa rin 'yun. Walang bidding, wala lahat. Pagpasok ko dito. Nakita ko naman 'yung report, ang medisina naman sa ospital sa AFP. Sabi ko sa military, if your major commanders will stand up now, I am going to resign. Tanungin mo sila. Lahat sila. Command conference. All.

Sabi ko, "Akala ko ba maasahan..." Pati ako I am buffeted left and right. Sabi ko, "Hindi ko kaya." If I go every wrongdoer, I won't have the time even to sit for a s***. Wala akong panahon maski pumunta na mag-p*** doon sa...

I offered to resign. But I will give it to the military because there's going to be a trouble and the police will take care --- that the proper thing or procedure will be followed. Wala man akong ano - -- I am...

If I complete the presidency, kung maawa ang Diyos, I would have served government for 40 years. That's a long, long time and I do not... Kaya 'pag magbisita ako 'yang Boracay sabi, "Thank you, President Duterte." Sabi ko hindi ako sanay nang ganun.

Ayan si Willy Torres. Never in the history sa Davao nakita ko 'yan, "this is my project." Sabihin mo tuloy, "this is my country", okay pa ako. Kayong mga taga-Davao, kailan kayo nakakita sa mukha ko diyan na, "this is my project"? I hate it. It's corny and naka...

Sabi ko kay Berna, "you do that". Hindi talaga ako pupunta. I will go to Boracay but on the back of Boracay. Kasi sabi ko they are scrambling for every space there, Boracay can only handle so much. Kung lahat ng mga investors mayaman magbuhos kayo ng pera doon, Boracay can only carry so much. Beyond that, it's re --- maliit lang eh. And if you go there just to build something, cut it and you buy the lands behind, so ang ginawa ko, ni-land reform ko. Because there were speculations "ah Duterte would give it to the gamblers, to the casinos and hotels." F*** you. T*** i**.

Kaya 'yan sabi ko kay Castriciones, "Declare it a land reform area." I'm going there, doon sa likod. Doon ako magpunta. Hindi ako magpunta ng Boracay. Total may swimming pool diyan o. [laughter]

Wala pa nakakagamit hanggang ngayon. And you believe it, I once took one --- one solitary, single... Hindi na ako marunong maglangoy. [laughter] Hindi na talaga. Hindi na 'yung... I have lost the agility. Palubog na ako nang palubog. [laughter] Buti't na lang may mga... Sabi ko tulungan ninyo ako kasi hindi ayaw... [laughter]

Magpunta, nako-kornihan ako kaya I skipped that s*** about... Kasi para sa akin hindi naman totoo 'yan. Sabi ko kay Berna, Berna... Sino ito? Basta 'yung pangalan ni Berna hindi ko na ma-pronounce. [laughter] Puyat. Sabihin mo sa mga tao, "Don't give me that s***. Take it down immediately." I do not need... I have had all the praises and the shouting and the clapping. They do not mean anything to me at all. Pa-ba-bye ba-bye lang ako.

You call me president, hindi kita sasagutin. Di-diretso lang ako. But if you change to mayor then maybe I would look back, "What? You need something?" Nag papa-corny? Yes. Nag papa-ano? Yes. Ayaw ko lang tawaging presidente. mayor lang. You want to be an attention giver? Yes. Call me mayor. Hindi kita pansinin kung tawagin mo akong presidente.

Corruption, 'yan. Karami ko ng... 'Yung Nayong Pilipino, hinaros ko lahat. Talagang lahat, lahat. Undersecretary dito. Ito, itong Malacañan. Sinipa ko ang p***** i** niya. Lahat wala akong... 'Yung sa hospital, General, nakalimutan ko 'yung pangalan --- tinermine ko. And I would not hesitate to do it again and again everyday. Maski 'yan lang ang trabaho ko.

And I told you hindi ako corrupt ha. I have been all year my life, magtanong kayo ng taga-Davao, magtanong kayo ng negosyante kung ni minsan naghingi ako maski campaign.

Marami akong tinanggihan dito kaya nung na-mayor ako, bayad. Bayad kayong lahat. At tama 'yung decision ninyo. Siguro hindi kayo pero at least si Braga pati si Secretary Quinsion sigurado ako na Duterte 'yan. [laughter] I don't know about the rest. Pero tama talaga kayo.

Ito sabihin ko 'yan si Melchor was my city administrator for the longest years. Nag-abot kami sa San Bida niya. He was one year ahead. Sabihin ko magtanong kayo ni isang Gabinete o businessman, I do not allow transactions in government ever to reach my table. 'Yang MRT, LRT, kung anong R-T, R-T ninyo diyan. [laughter] Inyo 'yan, it begins and ends with a Cabinet member. Wala ako. Magtanong kayo sino 'diyan. 'Yan sa Department of Trade. Wala kayong makita. Ang akin is just promotion pati mga policies. I do not. And you can be sure ang sweldo ko lang. Wala akong ibang tinatanggap. My salary and it goes to my families. [laughter] Kasi dalawa man ang pamilya ko. What can I do? 'Yan ang swerte ko sa buhay eh 'di pasensya.

Then... No, but of course. Let me... Mahal ko talaga ang mga anak ko. Wala akong ano diyan. 'Yung girls, except the wives of course, I love them because they are the mother of my children. 'Yung iba diyan. Wala na tayo kasi wala naman talaga, 73 years old, wala na. No more. [laughter] Magturo ka niyan ng 73 years old, sige daw na ano... Pero may exceptions. [laughter] I cannot mention the pharmaceutical baka... [laughter] But I'll give you an idea, it's blue. [laughter]

Then I said that itong the... Kasi... Do you know the implications of the agreement with the United States ngayon? There's a free trade. You can trade freely, that's what it means to say, with

America. But you have to sign a sort of a modus vivendi na 'pag mag-trade ka sa kanya okay lang and you can agree on mga taripa --- tariffs. But you cannot do business with China.

Noon na galit pa ang China sa atin, they are so meticulous about --- not even meticulous, let me search for the word --- almost pedantic. 'Yung makakita lang ng butas, wala na. They will not... Because they were then thinking that we were allied. So totoo naman we were allied always. We have always been.

But you know, it's not kind of that I will follow America to a T, all of it. So I distance myself from policies. I went to Xi Jinping and I said I'm here to talk about --- I'm not ready to talk about the --- sa West Philippine Sea. I am not prepared to go to war with you.

Kaya itong sila... Itong mga --- may mga justices diyan, they want me really to push aggressively. Ang hindi nila alam during my first visit, I brought along everybody including the military. Nandiyan si Panelo --- you were there? Sinabi ko talaga kay Xi Jinping na, "You know one day I will go in there in our territory to extract oil." Diretso ako, wala na 'yung pa-diplomat, diplomat. "That is ours."

Ito, nandiyan sila. Including Lorenzana, Año was the chief of staff of the Armed Forces. Sabi niya, you know President Duterte bago lang tayo. We just restored the relationship na ano... Pwede ba itong pag-usapan na ito at some other time?

Let us know on the things that we agree on. Anong maitulong ko? And since America binara nila ang kritikal kong importation sa firearms because Marawi was already a brewing.

Ang sa intelligence talagang puputok because they were passing arms to anybody and to everybody who would want to go to war. Eh kulang ako kasi 'yung mga vintage na 'yung mga... If you count them by your two eyes, marami. But you know the barrel of the gun with so many thousands going and out --- overheating, sira na 'yan.

Wala na silang tightness because at the end there's a rifling, they call it a rifling, lumalabas 'yan ng barrel umiikot, so many thousands of ... So it has a --- it has its own momentum kaya accurate. 'Yung hand-me- down, hindi na maobra sabi ng mga pulis so I had to buy.

Alam mo ito pati Canada nagbili ako ng helicopter. Tingnan mo talaga the ignorance of this... Sabi pa ng Canada nagkuha sila ng bell, but you cannot put arms there on your helicopters. You cannot use it against your own citizens.

So there's a cockeyed... Sabi ko, "Hoy, Trudeau, kung hindi ka ba b****, bakit naman ako bibili ng mga ganun kung hindi ko kailangan?" My own citizens are revolting trying to cease power. Ang Abu Sayyaf inuubos ang sundalo ko. There's a fighting there every day in Mindanao at itong mga NPA mga g***** 'to they are trying to overthrow the government. Abu Sayyaf is into terrorism. Buti't na lang may lull tayo dito sa Murad pati Misuari group.

Anong gawain ko ibigay ko 'yung gobyerno sa NPA? O 'di sige. Sison umuwi ka na eh --- I will share you eh gusto ng Canada pati ng America eh. Kaya wala akong magandang masa... Ngayon three, Mattis, Pompeo and the other one wrote me a letter. In one letter they signed asking me to visit ganun --- America. S***.

Sabi ko no, there will never be a time that I will go to America. Tapos na ang America --- I've seen it. Ngayon 'yang second wife ko when she got pregnant pinauwi --- OFW 'yan. Sabi ko umuwi ka na dito. Pabisita-bisita lang ako noon. Hiwalay na ako sa asawa ko of course. Sa bisita-bisita ko sabi niya nabuntis raw siya. "Ha? Akala ko ba nag-pills ka?" [laughter] Sabi niya, "G*** ka pala sinong pills ko wala mang lalaki dito ikaw lang man. Na-timing mo lang talaga." Kaya 'yan si Veronica. Sabi ko uwi na kayo dito, I want to see my daughter kasi mahal ko 'yung mga anak ko more than life itself.

Kaya 'yan si Inday maski anong gawain niyan wala man akong magawa hindi ko man maaway. Ingon ka unseating a Speaker operating there in Mindanao. Kaya sabi ko 'yung nagalit siya sinabi ko be careful with Inday. Hindi ko sinasabing be careful because he is a --- nagma-maneuver ganun.

Si Inday cannot let a statement pass. Kita mo 'yung sheriff binugbog? 'Yon sheriff na 'yun. Ano 'yan siya 'yung talagang maldita, maldita. [laughter] Pati ako niyan hindi na ako umimik, never na, basta ako kung ano... Ayan konsehal man 'yan sila.

Naging --- naging boss man nila 'yan si Inday. Itong dalawang magkatabi, Councilor Braga, si Boy Quitain, na-boss nila 'yan. Kung ma-late ka sabihin man niya na, "Let the record show that councilor --- 'yung kalaban niya, si councilor is late by five minutes." Sabi ng konsehala, "Your honor, it's only five minutes." "But still late." Eh 'di tahimik.

Ganun 'yan. So free enterprise. I do not accept businessman dito makipag-usap. Kaya 'yang casino, they are still at it. Kay may franchise lang siya na sabi it's a contract. To the hell with the contract, I told you I do not want gambling, period.

Eh 'pag --- sabi ko doon sa mga pulis, "Sunugin mo 'yang hotel niya." May bumbero ba doon? Baka magkalat sa ibang hotel eh. [laughter] L**** sinabi na ngang I do not want gambling. Stop it because it's not good. Tama na 'yan, may sabong 'yung mga sabongero hayaan mo 'yang mga g***** 'yan wala namang ginawa 'yan.

Pero 'yung online-online bingo, it will be suppressed, no gambling. Kasi ang gambling kasi tingnan mo itong Okada lahat ng kidnapper, extortionists, mga pulis na scalawags, mag-kidnap sila diyan lang sa kwarto. Tawagan 'yung pamilya, ayaw mong magbigay? Patayin nila.

Kagaya nung babae labas sila sa kwarto as if nonchalant. Ah kaya sabi ko pagka ganun, for whom the bells toll? It tolls for you. Hala gabagting na ang simbahan. Iyan may ililibing, ikaw.

So that's about it. I just want to express my sama ng loob pati... Hindi... I know that. I do not expect that we will all understand each other. There will always be dissent. And the essence of democracy is dissent.

Kay wala man akong pina-stop dito but there are things which are not allowed even in other countries. And when you are a tourist here you cannot just open your mouth and insult government.

That is not given to foreigners. It's only by his own universal right as a Filipino. Kayo wala akong ipinakulong na nagsalita sa akin. Tatal laway man ninyo 'yan. Ako makinig? Nako. You know I cannot run anymore. So you know, what's the use of having a troubled mind about what's saying against me?

Kaya ako pag si --- “Ayan si Duterte killer.” Tama ‘yan. [laughter] Ganun ako eh maski nung mayor ako. “Yan si Duterte babaero.” Tama ‘yan. “Yan si Duterte...” ‘Wag lang pera kasi ‘yang pera hindi ko talaga negosyo ‘yan. Iyan ang dalawang issues noon pa, tanungin mo ‘yung mga taga-Davao.

Iyan kayong taga-Davao. ‘Yan si Landbank o taga-Davao man ‘yan. Tanungin mo ‘yan. ‘Yung sa akin babae pati ano... Tama. “May pinatay ‘yan na anim.” Wrong, you are gravely wrong, pito ‘yon. [laughter]

Babae, maraming mai --- t*** i** mo kung magdaldal ka. Sabi niya, “May dalawang asawa ‘yan at may girlfriend ‘yang apat.” U*** lima lahat ‘yan sila. [laughter]

Ganun ako pero hindi ‘yan totoo maniwala kayo. Sino bang g***? ‘Di masampal ka ng asawa mo pag-uwi. [laughter] Ano man lang ‘yan, ang tawag namin diyan, istorya lang man ‘yan, maniwala pala kayo? [laughter]

Salamat po. [applause]
