**SPEECH OF
PRESIDENT RODRIGO ROA DUTERTE
DURING THE CONCLUDING CEREMONIES OF THE 44TH PHILIPPINE
BUSINESS CONFERENCE AND EXPO (PBC&E)**

[Delivered at the Manila Hotel in Manila City | 18 October 2018]

Kindly sit down. Salamat po. Salamat for the courtesy.

President Fidel V. Ramos; President Estrada; Excellencies of the diplomatic corps; Trade and Industry Secretary Ramon Lopez and other members of the Cabinet; Philippine Chamber of Commerce and Industry officers and members led by its President Alegria Sibal Limjoco; members of the Philippines Business Conference and Exposition led by its Chairman Ramon Ang; the 44th Philippine Business Conference Exposition awardees; ladies and gentlemen.

With two president behind me and I'm... Nakakahiya po. *[laughter]* And of course in particular sa inyo, you know I am sure that the two presidents would not be happy with just a minute and a half then I leave. Though of course I have about three more commitments and one of those events would be the marriage of Koko Pimentel.

He will be happy again. *[laughter]* Yes because... Oh I'm not but --- I also have two wives. Siya rin *[laughter]* and maybe all the others behind and in front of me. *[laughter]*

Eh totoo man 'yan bobolahan pa tayo. About one-third of you here are all guilty of perfidy. Magkahiyaan pa oh ng...

You know I might read the prepared speech later if I have the time kasi nakakahiya naman sa gumawa nito nandiyan sa likod ko *[laughter]* the Presidential Management Staff and the ---- run-of-the-mill but it contains all what you would need to hear.

But you know early on, just after a few days after I was inaugurated to work for the national government, the --- everybody was bewailing EDSA plaza.

And every other president before me failed and including me. You know to operate a huge country with the longest coastal coastline, islands for islands, seventy --- 7,000 islands for the Philippines --- I would have needed money even to start with EDSA.

So I commissioned some of the Cabinet members early on to talk to Congress if I could borrow money to improve EDSA just a little bit. And I said if you would want to --- me to declare a national emergency and I can borrow money so that I could do something about EDSA.

At that early, I realize that the other presidents including me will just have to work with everybody and that the powers of the president is not that great or absolute.

So 'yung narinig nila a lot of declarations, statements and I said that's too much to be granted, which was granted to President Fidel V. Ramos and President Aquino.

Sabi nila that is very susceptible for... It's a big money we would not know how much and what are the... And even before just like maybe asking me what we intend to do to present our layout of what should be an ideal EDSA to correct the aberrations in the traffic now.

Eh ang --- most of the answers was that it is they said corruption will always be there and they are not so keen about granting.

And I realized then that it's the Filipino way. Didn't even bother to ask us to present. But all other in chorus say na, "Ah wala 'yan corruption 'yan. That's too big a sum of money to be given to a particular department."

So nung narinig ko 'yung corruption sabi ko "no more okay hindi na bale." I said to everybody in the Cabinet, "Stop talking about it."

That's the last thing that you would want to hear is we will corrupt the money. So EDSA is still there, there's still chaos. And everything that Ramon Ang said before you today are all true. Totoo talaga lahat 'yan. *[applause]*

And with less money in our hands and Dominguez desperately trying to raise the money and with the global chaos, we find ourselves here today still grappling for solutions. My simple mathematics in high school and in college, eh hindi naman ano eh parang arithmetic lang 'yun.

But long ago I realized that every time 1972 when OPEC was born and the money of Saudi Arabia led the revolt against the economy of the world they raised the prices.

And that was the time that I was done a prosecutor. We were working for government and na rasyon `yung gasolina. And everything rose behind it in the swath of their huge increases. It hit 72 I think per barrel.

At nakita ko na when the oil rises in prices everything else follows. Now I was just also shooting the breeze with anybody that would want to talk to me about economy. Eh puro kami prosecutors. We are very limited to law. I was a trial prosecutor so that was it.

Alam ko na talagang mahirap even as a mayor --- for the mayor then pati nung na-mayor ako ngayon. Davao City is hitting nine percent in growth local and it's a record.

And that's why I was very, very adamant in --- sabi ko if I leave Davao, I will not run for this office. I cannot leave Davao, nanghihinayang ako.

And I knew that the pendulum was swinging faster. So I prepared the people by saying na may anak ako but be careful because --- sinabi ko talaga sa kanila --- she can be a you know... Ano ito talagang mayor `to si Inday. So nung pumayag siya eventually I was able to be a substitute candidate. So ganun rin same problem because I think she got more kasi sa Davao.

But all of you businessmen, kindly take a look at Davao. You've been there. You've been there daytime, nighttime. Maski ganun na lang sana I would have wanted but I know si Inday naman I don't know if she exceeded the speed limit of her...

I reduced the number of hours for people to go out at night and say from one --- from two to one. Sabi ko kailangan tayo matulog pati ang mga anak natin sige inom. And you know `yung mga waiters, they are there also with their families and everybody is drinking and smoking.

So I also... When I banned smoking, I also banned myself from smoking. And we have a good law in Davao at 12 o'clock midnight, Davao is a very lonely place.

Wala kang makitang mga istambay except diyan sa convenience store and nobody walks around. Not because I wanted it though I was the first to enforce it and they like it now.

So ganun ang gusto ko sanang ambience --- the environment to create productivity. Apparently it's really a question of money, money and money.

Now the world is in a brink of another round of... I don't know what will happen but...

I'd like to confirm this with Sonny Dominguez na Trump would like to have a system where he can enter a trade agreement, free trade agreement with you probably like NAFTA. But you have to sign a document which says that if you are in trading with America, you cannot trade with China. Kayong mga negosyante, paano 'yan?

Noon, it was not normal time. There was this --- a little bit irritation between China and the Philippines. And suddenly, I just veered to a policy where I said I'd be neutral. I went to China to talk about the acquisition of firearms because I knew that Marawi was about to explode. I was given by the intelligence community good results.

We were able to estimate the number of guns. But we never --- we failed to appreciate ilang tonelada ang ordnance nila, bala pati bomba and everything.

So it was a failure of intelligence and because I'm the guy who sits there, I would just have to assume full legal responsibility for it kaya tumagal.

So 'yan ang --- so we spent a lot of money there, instead of putting it sa mga infrastructure. I really do not know --- I'm not an economist.

I leave it to Diokno, Sonny and Pernia. Sila 'yung nag-aral sa economics. Ako diyan, I remember I only got 78 in college. And I don't remember how -- if I passed that g***** subject in high school.

Pero hanggang diyan lang ako. I do not interfere. As a matter of fact, you all know, lahat kayo, no commercial transactions of government would ever --- either private or public or quasi --- na dadating sa mesa ko. Walang kontrata sa gobyerno ni isa. MRT, LRT, reclamation, lahat 'yan, it starts and ends with a Cabinet member.

I do not even call them because I know that my conversation, my narratives are being taped by China, Russia, America, Israel, and everything, everybody there.

So I only talk to my Cabinet members personally. For the life of me, I have not called anybody. Wala akong tinawag na Cabinet member about anything about money. Wala talaga. Zero ako.

Declarations, foreign policy, lahat, promotions, hanggang diyan lang ako. Bawal sila magdala ng commercial paper. And they are not supposed to talk to me about that. Kasi Cabinet member kita, I have confessed to the public my --- a little bit of not so good. So you take it. Kayo 'yung experts eh. Sonny Dominguez is my childhood friend. We grew up as neighbors. And he was a consistent valedictorian, Kindergarten kami hanggang...

Sila nagtapos ng --- pumunta ng abroad. Ako, wala sa --- because it took me seven years to finish the high school. Ako ho 'yung original K-12. *[laughter]* Kaya... Nagsabi 'yung anak ko si Veronica, sabi niya kasi baka akala niya si Briones, Secretary Briones.

"Sabihin mo Pa, bakit tanungin mo 'yan si Briones bakit niya hinabaaan 'yung aming eskwela? Bakit kayo ganun tapos..." O ikaw," sabi niya, "nakita ko man 'yung grades mo sa vault ni mama. Puro bagsak ka man, eh bakit ka man naging Presidente?" *[laughter]*

"Aba," sabi ko. "Well, anak," sabi ko, "let go of the subject kasi baka gawain akong example ni Secretary Briones." And even then it was not Secretary Briones. It was si --- itong --- I forgot his name. The priest sa --- he became the Secretary of Education of the former president.

So I'd like I --- there's a problem. We will try to solve it the best that we could or can kasi wala man kaming trabaho except to solve the problems. But I would like to stick to what I have promised to the people during the campaign period, because that is the bedrock of my paradigm now as a President.

I made simple promises because I could not get any time slot for lack of money, alam ninyo 'yan. And maybe during the presidential debates, I never saw my advertisements --- on the side about me. It was all about my opponents. Ako wala na, sabi ko, "Well, that is all that I can afford."

But really this talk about --- itong TV networks. Iyong mga sponsor-sponsor ninyo presidential debates and you only give us about a minute and a half. Racket 'yan adre.

If you really want an educated debate before the public, give them one hour or 30 minutes to expound on what he intends to do in the country or for the country.

Iyong ganun --- so ako bullet-bullet lang. Time constraints, tayong mga abogado alam natin 'yan. Your attention always called by the judge, "You have another five minutes then you're off." So natuto akong mag-bullet.

So I promised you that corruption will be dealt with severely and I am doing it. That is a campaign promise which I'm doing now. *[applause]* What is utterly lacking is the assertiveness of the Filipino people of their constitutional, civil, and political rights.

Ang Pilipino 'yan eh because you surrender, you give in to people in government who are into graft and corruption. Ang makatulong niyan magsama tayo. Isumbong mo lang at sinabi ko nga, anybody who is complaining about graft and corruption, I will give you an audience any time.

And that's what happened 'yung frigate ng Armed Forces. There was this Korean who represented this --- 'yung nagpabili sir --- and he was complaining why there has yet no order to deliver na nanalo sila.

So 'yung letter niya ibinigay ko kay Bong "give it to legal." Si... So legal referred it to Lorenzana. So ang nagsulat si Lorenzana.

Eh alam mo ito you choose your candidates wisely. Kayo, kayong Pilipino. Alam ninyo 'yan. Kung bigyan kayo na sabihin ah because ito mahusay magdaldal and all... And they are there just to wallow in their lost sense of pride. Ayan.

So ipinatawag nila lahat, ipinatawag si Bong. Sabi ko, "Punta ka, Bong." And sinabi ng mga sena --- ah executive session... Sabi ko, "No, no, no. You demand a full proceeding in public."

O 'di nakita mo ngayon si Bong Go senador na. *[laughter]* O totoo. *[applause]* He will win. He will win.

Kita mo. Nakita mo how fate play --- destiny of men are played. Hindi kilala 'yan. Mas kilala 'yung nagpatawag sa kanya. O tingnan mo ngayon. You weigh the scales of their character.

Anong nagawa ng isa? Revolted in public? So anong nakuha ninyo ngayon? All witch-hunting.

People are being shamed there. And that is why my son who resigned as Vice Mayor in disgust noong ipinatawag siya. Now he is running for congressman. 'Di ko na mapigilan. Ipinahiya mo 'yung tao eh.

Sana 'pag ganun, may kaso ka, file mo kaagad. Then there is a trial or the Ombudsman completes the...

Ngayon hindi ko na mapigilan. Ngayon magsama-sama na sila diyan kung manalo sila. Ah bakbakan 'yan. And I --- I cannot stop because he's already old.

Sabi niya, "Ayaw ko na Pa 'yang public office." But nag-nurture na ang sakit ng loob and everybody else pati si Bato. Sigaw-sigawan mo.

Kaya sinabi ko sa mga Cabinet members ko including the Armed Forces of the Philippines and the Philippine National Police, if you are summoned by Congress, go there by all means. Obey the legal process. But if you are shouted at and insulted... Kagaya nung si General *[garbled]*, "You have no dignity, you sit down." Ganunin ka. When you say, "May I defend myself just to --- also to protect my dignity?" "No, no, no, no. You do not have any dignity. You sit down."

I told my police officers, the Army, Navy, Air Force, do not allow yourself to be insulted. 'Pag ininsulto kayo, you stand up with courtesy and say, I came here in response to a subpoena to tell all about truth. But if this is what I get, the orders of Duterte says we would stand up and leave. And if we are arrested --- ordered arrested by the Sergeant-at-Arms, by the Speaker or Senate President, you submit yourself to jus --- to their jurisdiction.

Magpakulong ka pero tawagan mo ako. Sabihin mo sa akin na ganyan ang nangyari and I will fetch you diyan sa Congress. Hindi ako magdala ng pulis, hindi ako magdala ng army. Iiwanan ko 'yang security ko sa labas. Papasok ako diyan sa kanila, trangkahan ko 'yung door, then we will deal with each other, ano ba ang gusto ninyo? Anong gusto ninyo ibigay ko sa inyo. So what?

Sabihin mo sa akin. How do we start? Hindi ako mag ano but I will not allow my --- the officers and men, mga generals pati Cabinet members sigaw-sigawan mo. They mu --- you must be --- realize that we are all co-equals and one body does not give you the other to shame another fellow human being and a Filipino official at that.

But I will be --- struck --- strike hard against corruption. I struck hard against corruption. I have dismissed a lot of my --- a number of my Cabinet members for corruption.

Ayaw ko na lang magyabang pero I tend to really be also violent. Lahat ng napaalis ko 'yung --- lahat 'yan nakatikim ng not only verbal.

Eh ako 'pag galit ako sa'yo, "Halika, tayong dalawa. Tayong dalawa lang. Kayong mga security, umalis kayo." If it's my time to die, it's my time. "Hali ka dito, mag-usap tayo."

Wala akong ano. That's the only way really to deal with the problems. Ito namang nasa corruption, you go. And I said you must be beyond whisper even like Caesar's wife.

So ganun ho ang akin. I am complying with my promise. The formula you might not like it I'm sure, and I am not asking you to accept me. Eh tinanggap ninyo ako ganun na ang bunganga ko eh. Nagp*-p***** j** na talaga ako pagka ako galit.

Noon wala pa akong responsibilidad eh nga --- lalo na ngayon. Kaya 'yang corruption hindi... Kasi kung gusto mo bureau, director, department o

Cabinet member, you just tell me. You need not give me your name. Basta malaman ko lang na may racket diyan.

'Pag gusto mo tawagin ko 'yung tao nirereklamo mo, tawagin kita, at sa harap mo sampalin ko 'yan.

Tatanungin kita, "Ilang beses --- ilang sampal gusto mo? Galit ka sa p***** i***** 'to? Ilang sampal gusto mo?" Ibibigay ko. Eh ngayon na ganun walang hiya eh.

Doon ako lumaki sa Mindanao. Hindi ako --- sabi ko nga sa mga Duterte sa Danao City from where my father... Nanay ko is a Maranao. Sinabi ko, "T***** i** ninyo hindi ako Duterte ng Danao ha. Duterte ako ng Mindanao." Ibang klase ang buhay na amin, hindi... You don't... It's fraught with so many forma...

Kay itong mga buang nanibago sila kung magmura ka. Eh anong... Eh ang tao sa amin kung magalit nagmumura. Ewan ko sa inyo dito how do you do it. P*** sa... Kung pwedeng mautot mo 'yang galit mo, 'di daan mo sa utot sa banyo. Eh kung puputok ka... Kaya 'yan ang gusto...

Kung ayaw ninyong mahinto ito, hindi talaga mahinto ito. But maski sino 'yan military, police, local government, sabihin lang ninyo at tawagin ko at mag-usap tayo diyan tatlo sa opisina. And I will guarantee you, you will have full satisfaction.

Ginagawa ko 'yung trabaho ko. Marami na. Pulis we have dismissed about a thousand. But I know that... Pagka 'yung itong mga walang hiya na ito --- hindi naman lahat. Ang pulis fundamentally they are all right.

But there are simply too many scalawags also, lalo na Maynila, t*** i** itong ninja cops, they are still in the business of drugs.

Now I told everybody that drugs will destroy my country. The Philippines is my only country. And when I was mayor, I said I'm going to build --- kayong taga-Davao, what did I tell you?

I will build a comfortable city. Not a rich city, wala tayo niyan. But comfort enough that you are safe, that there's peace, and you can go into business. Ibinigay ko 'yan. Sinabi ko sa mga droga, hold-upper, "Do not destroy my city, especially drugs, because if you do, I will simply kill you." *[applause]*

Pero patay-patayan lang 'yan ma'am ha. *[laughter]* And sinabi ko, do not destroy the young Filipino lalo na 'yung walang- wala. Because if you do that, you deprive us of our only asset in this world --- ang mga anak namin.

Bakit? Wala kaming mga megamall --- wala kaming mga cement factory, wala kaming coconut. Iyang mga 'yan, 'yan, mag-retire 'yan 56 years old. At age 56, very early, mag-retire na 'yan.

Some of them may receive 900, 800, to about a million, two, depende sa rango. But bigyan mong two million at the age of 56, wala ng trabaho, diyan na niya kukunin ang pagkain niya for the rest of his life. Ang kanilang eskwela sa bata, pamasaha.

If you give them --- isagad mo na three million, at the age of the 56, retired sila. Do you think three million would last you five years? So when you get old, you get sick. Ako 73 years old. Huwag kayong magtanong kung may sakit ako o wala.

Lahat ng 73 dito sa p***** i***** mundong ito may sakit. *[laughter]* Pareho 'yan sa'yo dala-dala 'yang mga maintenance nila. Malaman mo 'yan kasi pagsilbi ng alak, wala na. Siguro 30 years before, ito ngayon nagla-la lang 'yan, tapos isang bote.

Ngayon pag-serve ng dessert, gaganon lang for respeto. "Ah oo matamis 'to." *[laughter]* Takot na man sa high blood, diabetes, pati... Diabetes is a... Ako, kita mo nangitim. O ayan o tingnan mo sa...

Nasunog nung pumunta ako ng Jordan. Sunog na ito, pumupunta ako ng kampo every week. Oo, kampo sa bukid. Pinakamalayong kampo lumilipad ako doon. I visited every camp.

So pumunta pa ako ng Jordan, wala ako... Hindi man ako kasi mahilig maglagay ng --- nagmi-melt eh and I hate it. Kaya sabi ng --- sabi nila

may... Kasi 'yong may mga kidney na sakit kasi mag-itim. Eh 'di sabihin ko magtanong, "Duterte may sakit ka?" "Oo." Ganon ako eh.

Bantay kayo sa akin. Iyong Inday na 'yan, t*** i**, na-perfect niya 'yan. Ah sus, sakay ka talaga. Ako, tanungin mo ako, "Mmm, third stage." "Ano?" "Cancer of the brain." *[laughter]* So what else? Meron akong kidney. Part of it is already gone. And my heart beats 120 miles per hour. *[laughter]* Sinong hindi mamamatay niyan?

Eh 'di maghintay lang kayo. Nasunog ito eh. Buti't na lang napunta ako doon sa derma na --- and she's very good. Kasi 'yang ginamit ko kasi 'yang sa asawa ko, "Ah cream lang 'yan."

Eh 'yung asawa ko, Shiseido, may one, two, three, four. Ngayon lang ako nakakita ng medisina na parang rocket. Parang booster. Mahulog 'yung isa, patuloy mahulog. One, sabunan mo sige.*[laughter]* Two, mahapdi na. Three, ganun. Four, five, tapos meron pa 'yung maliit.

Ayan okay na. Iyong sa asawa mo, okay na 'yan. Pagtingin ko, p***** i**, bakit nangitim ako lalo? *[laughter]* Then a dermatologist visited me. She's a lady but she's very good. 'Di naman masyado. Maitim lang talaga ako. Lolo ko Africano eh. *[laughter]*

Sabi ko, sabi ko sa doktor, "anong ginagamit mo?" 'Di sinulat ko 'yung... Pinapicturan (picture) ko doon sa Davao ng kasama sa bahay. Tapos ipinadala dito, tiningnan niya. Sabi niya, "Ito na lang ang gamitin mo. Ton -- - itong pangganun pati ito lang. Iyon lang. Iyong iba ho, huwag mo nang gamitin. Mas lalo kang iitim." *[laughter]* Totoo.

I do not have the permission but she's very good. Tinitignan ko. Eh ano, para sa akin ang lalaki it's not really the color of your skin in the face. It's your character. Hindi man ako bilib diyan sa... *[applause]* Gwapo-gwapo tapos ano ka pala.

And the second is drugs and crime. In front of the two presidents who are also in the same league with me. Same for all of the... Do not tinker with drugs. Patay ka talaga.

OFW. You know there's a certain tribe there which practices this odious thing about slavery. If you are bought from the slave markets of Africa or you are a paid household domestic, rape is just an ordinary thing.

Iyan, diyan ako nasasaktan. Talagang mauubos 'yung ngipin ko pareho kami ng mga adik. Kasi 'yang adik, sige lang ganon o. *[grinds teeth]* If the idiot is in front of you and he keeps grinding the teeth, iyan adik 'yan.

Kaya ang unang mawala ang ngipin nila. Kinakain nila eh. Tapos hindi 'yan -- hindi 'yan kumakain ng --- kaya payat. Kaya --- anong bagong joke? Iyong sa TV? Ano 'yun na sinabi ng isa? They're all crazy.

And that is why ipalagay na natin 'yung three million mali 'yon because they dispute it and that was really the number pegged by the previous PDEA anti-drug enforcement. So sabi ni Bato, 1.6 and it was not after I assumed my work there na nalaman ko 'yung totoo.

So what happened? You had one million six skinny, stinking and reduced to slavery to a drug called shabu. Talagang pinapatay mo ang aking mga kababayan. And to think 'yan ang mga abused OFW.

They venture out to work for the sake of their families so that they can have an education and the money. They go there. You remember, one family loses a mother because she was abroad that family becomes dysfunctional. Walang nanay tapos mag-iwan ka ng three, four, five. And sometimes there are situations the husband and the wife go abroad to work. Then that family becomes totally dysfunctional.

And how many millions of them are out. And count the numbers of their children that are contaminated with drugs. They endure hardships, abuse, rape and all. They work there for four years, five years when they come home only to find their children are addicted to drugs and reduced to inutility. Buang 'yan.

They've lost their minds. Kasi 'yang mga durugista, they know that they have this regular remittances from their father or mother. Didikitan 'yan eh hanggang bibigay.

Now look, maybe hindi ma-realize ng ano... But me, galing ako diyan sa baba. We left Cebu, my father left Cebu to seek the greener pastures of Mindanao. Eh kung... If my father had the money or had the land, he had --- he will stay in Cebu. But he had to go to venture out to seek another life if there was one.

The family that owns Danao City owned it right after the war until now. They are lording it over. And that is how many generations. They own the cement factory, the botika, lahat, bangko.

And why is this? And why is it true now? Because the Philippines is still in the feudal stage. Why? Because there are so many people without money and cannot eat.

So all that they need in the provinces and even in the city, they go to the mayors. I was mayor for 23 years in Davao, I know that. Eskwelahan --- school then there --- for their medicines, hospitalization. Mayor, mayor, barangay. So, we were the ones who were dispensing patronage. Using what? Using the people's money, his own money. And yet they stay there in politics for --- in dynasty.

Ako, ayaw ko na. I'm 73 years old. But ako, I could not see Davao go back in shambles. So I insisted on my daughter kasi kaya niya. O kita mong sheriff binugbog. Where can you find a mayor mauling a sheriff in front of everybody on TV? Talagang ano 'yan si Inday. So be careful with that woman. *[laughter]* She can oust even a Speaker. *[laughter]* She operated in Davao. Babae 'to ha. *[laughter]* She operated in Davao as Mayor. Tingnan mo nangyari sa Congress. O 'di natanggal si...

For one simple, maybe si Bebot naman he's a close friend of mine. I will support him. Pero siguro in... "Oh I can also impeach him", referring to me. Para sa atin wala 'yan. Bale wala 'yan politiko. "Bakit mo ako i-impeach? G*** magkaibigan tayo." That's the usual answer. You banter around but you know siguro... Ang anak lalo na ito, bantay kayo dito.

Noong narinig niya nag... Siguro sabi niya, "Bakit mo ganunin ang tatay ko na...?" And before I knew it in Congress, sabi niya lang itong si... Sino gani ang pangalan niya? Nakalimutan ko 'yan palagi. Si... Yung sa DOT --- DOT, DOT Tourism sa Tourism siya. Ah si Berna. Ahhh tsk. Si Bernadette.

Noon ko lang nalaman noong nagkita kami sa Congress sabi ng --- sinabi daw ni Inday nagkita sila sa washroom, "Tell my father, I'm sorry." So I didn't know the implication of that. I... Wala akong... Honest to God. Si Inday 'yung gi-maneuver niya. Kaya p***** i** pati ako 'pag naisahan ako niyan baka mag-kudeta pa, siya ang junta, ako ang naiwan sa labas. *[laughter]*

Ngayon, ganito 'yan. I do not want it. I'd rather stop. Pero my son is running. He's running for congressman. He resigned as mayor in disgust because of his daughter 'yung picture inside Malacañan Palace.

Parang napahiya siya sabi niya, "Mag-resign na lang ako Pa." Then plus 'yung tinawag sila ni Trillanes. And ilang tao diyan na ipinatawag ng Congress na hiyain lang? 'Yang ganun pareho kay Angie kaya nag-suicide. You shame people, you humiliate them, you shout at them then after that, wala. It's all show. It's all show.

'Yung ipinatawag nila, 'yon ang nagsasama ng loob. Eh kung nademanda sana there's a mitigating thing there kung totoo.

Ngayon, tatakbong congressman si Pulong sa first district ni Nograles. Eh 'yung kapatid naman, ewan ko kung anong bakukang na napasok kay Inday, pinilit niya itong ano ngayon bunso, si Sebastian. Walang ginawa 'yan sa buhay. Mabuti meron na siguro kung i-vice mayor niya. *[laughter]* Babae lang lahat. *[laughter]* T*** i**.

So ayaw ko ng dynasty but we are forced. At saka magtanong ka, punta kayo ng Davao. You conduct a survey. Itong mga interesado na dynasty, dynasty eh 'di pumunta kayo na sa tao.

Tanungin mo ang tao, dito tanungin mo. It's still political families. Because sabihin naman ng mga barangay captain, "ah ayaw namin 'yan". Ah hindi na magkakampanya 'yan kung ayaw nila. At saka usually 'pag naumpisahan ng isa, tuloy-tuloy na 'yan kasi hingiin ng mga tao na 'yan. So that's politics.

Pero itong mga narco nandito. Wala na masyadong laboratory dito. Mag-veer lang, paganun-ganun lang ako ng discussion. Along the way you would learn a little bit of me. Itong shabu, wala ng laboratories dito kasi alam nila papatayin ko talaga sila. T***i** papatayin ko talaga sila.

So they are now into importation. We are suspecting the intelligence community that it is the 14K Triad who is handling drugs now in Asia. At ito namang Mexico, not the Medellin lahat 'yan sila, bantay kayo diyan sa mga cargo kayong mga exporters because 'yang mga cargo na 'yan kung saan-saan pagdating ng pantalan o inbound for ito, banana dito. Kung saan-saan, 'yan ang ginagamit ng cartel. Diyan nilalagay nila 'yung parang roofing na

plastic. It's not all steel. It's covered by a plastic thing. Eh isang beses bumagsak, nandoon 67 bricks of cocaine.

Ngayon sabihin nila, "Bakit si Duterte pinapatay niya ang mga mahirap?" Look stupid, shabu is the commodity of the poor. 'Yung mga anak nakapag-aral they know that marijuana and itong cocaine can destroy you but it would take you years to destroy yourself kasi itong marijuana pati cocaine are extracted from natural --- organic plants.

Shabu is a mixture and one of that is formalin at 'yung sa baterya ng --- ng tubig sa baterya. 'Yon imi-mix 'yun. Kaya paghithit niyan, it slowly destroys the brain and the brain shrinks and he's gone of no use.

So if I have about one million six slaves here, what will I do with you? Court? There are courts here. There is a court, it's the --- Supreme Court. I told the Supreme Court, there's a judge here more than 1,000 cases all dropped. Dismissed lahat, acquitted.

Pulis, pulis, may mga pulis hindi lahat . Pero 'yung mga corrupt na pulis, 'yung mga akusado, they just pay the server. Ang the server would go --- kayo mga abogado alam man ninyo 'yan. So when the case is ready I would stand and say, "Your Honor, I'm not ready." " Why?" "Because my witness is not here. He is sent to a mission." Ganun. And then the other guy would say, "Your honor, we invoke speedy trial."

If the evidence does not have the --- it's not the position of government they remove for a trial --- dismissal. The court would say, "Fiscal, prosecutor I would give you --- I will reset this trial now, I'll give you another chance."

Pagdating doon bayaran niya 500 lang. Walang nagtatanong niyan eh. There never was an instance single or solitary na ipinatawag mo 'yung server, "p***** i** ka bakit mo ganun ang...?"

Ako lang. 'Pag ma-dismiss ako wala ang pulis, "Your honor, my remedy is to ask for the arrest of the person. Bring that policeman here and --- to answer

us why he is not --- the idiot is not here?" Ganun ang ano ko, ipaaresto talaga `yan. Pero dito pag wala, wala. Nobody cares kasi wala namang private --- unless it's homicide tapos ano.

Pero kung drugs drugs lang pati trafficking there is really no personal victims here except the state. Kaya nadi-dismiss. `Pag second time still say, "Your honor we're very sorry, we apologize but we have to give you the truth. I do not have the witness at all because he cannot be found nowhere." Here's the record. Dismissed.

Tapos sabihin nitong p***** j***** mga Human Rights... They just don't know how deep corruption runs in this country and how shallow is the human fragility. Kaya kung may perfect ba tayo kagaya nung sa Amerika kung gusto nila.

But please do not drag me into that ICC. I will not submit to you, you idiots. ICC, who created that? Europe, EU. Who's the prosecutor there? Who --- who appointed her? Diyan sa unit nilang --- ano `yung International Criminal Court. And nung presidente nila sabi nila na, "Duterte, you'd see a psychiatrist." Kapatid pala ni King sa Jordan eh.

Eh pupunta ako ng Jordan, so pinigilan ko muna. Napaiyak tuloy ako, inaapi-api kasi ako ng mga tao. Mga Human Rights na... Sampalin ko `yang mga p*****... Kaya `yung --- `yang itim na ano, ano `yang putot na --- iharap mo sa akin `yan samp --- kung nandito sampalin ko `yan.

ICC. Who created you? We are Asians, you created that idiot thing in Europe. You appointed all the officials and even the chairman of the International Court Commission, `yung fiscal nila o prosecutor is the brother of the King of Spain.

Now may I ask you, what is he doing there? Were you elected democratically? Where did you --- are you a choice of the people? Why would you bring me there? P***** j** pagdating niyo sampalin ko kayong lahat diyang mga judges.

Bunalan ko pa kayo `yang ano-ano ninyo, mayroong gavel na buto `yang ulo ninyo `pag magwala ako doon. What the hell are you trying to...? Patawag-tawag na...

And you cannot acquire jurisdiction. You know why? Even if it is really a valid agreement, our laws requires there's a Constitution which says that no man shall be deprived of life, liberty, or property without due process of law. That is in the Constitution.

Now here comes the Rome Agreement, the treaty which we signed. It was signed by President Estrada which is correct. It was sent to the Senate which is also the correct way. Then those who handled it, I don't know who --- stupido ring Pilipino, dineretso na nila sa Rome and attached it to the Rome Agreement.

You know in the Philippines there's a saying, "ignorance of the law excuses no one." But if there is no publication, how can I be now be informed that there is a law? So my ignorance of the law would excuse me. What is the constructive notice? You have to publish it in the Official Gazette because that is the constructive way of saying "now we are bound by the law" because it was published.

It was never published. In *People vs Tavera vs Tañada*? Supreme Court that failure to publish it is fatal, which is correct. How --- if I'm a Filipino, I was a prosecutor, I'm a President, how am I now to suppose that there is a law that binds us? Hindi mo pinublish (publish) eh.

So silly sending investigator, you must be an idiot. And then itong EU created that ICC. Who drafted it? What was our participation? And if it is a valid agreement who are the persons there? Who chose them? We? We here in the Philippines, I appoint then it goes to the Senate for concurrence. Then when it is concurred, there's a --- an agreement now it becomes a law.

Without that, without the publication there is no law. It is not true that we separated, we have withdrawn because we withdraw nothing because there was no law at all.

How does it apply to me, the absence of the publication and all? Then I go to my Constitution which is the highest law of the land, that no person shall be deprived of life, of liberty, or property without due process of law.

What is the due process in me? You did not publish the law. That was my --- actually, and I just... You know frankly I just wanted to know how many stupid people there are including lawyers? I was the only one keeping that. I allowed the demonstration, go ahead. This is a... I allowed them. But when that commission chairman said that I need to look a --- I wanted to b***** him. But somebody told me, "Ep --- pupunta ka pa naman ng --- you're going to Jordan so..."

Now I've been there, I'll tell now. He's a prince. The country is ruled by an auto --- autocratic. If you want to be soft about it, monarchical. He does not come from a free country. There is no democracy there. Why would you hold me there?

EU should be put on notice that it is fraught with so many dangers. Someday Europe will have to account also for their misdeeds in the previous centuries. Memory --- people have an elephant's memory. How about your transgression, the rubbing of the oils of the Arabs taking over and worse dividing the Middle East into territories establishing countries against the will of the Arab people.

You know it takes two to tango. Let no man with no sin cast the first stone. That's the problem in this universe. Then I've told you --- this time...

We are running out of time. Koko's bride maybe fretting around pati si Koko siguro gusto nang yumakap. *[laughter]* They're getting married. Let's go there and begin the ceremony.

I told you I do not allow commercial transactions. I do not make decisions about trade and everything. Sa kanila 'yan. I do not even make calls.

For the life of me, I have yet to call even Secretary Lopez. I do not use the... L*** 'yang cellphone na 'yan, isang tuldok mo apat ang numero ang maglabas. Itong g*** na ito. *[laughter]*

Even how I try gusto pindutin sa kuko. Iganun-ganon mo. I used the... So I do not... I know that Russia, America, Europe, Israel, China are listening.

So if you look at my directory, it's all girls. Hindi ako nag-ano, wala namang... Mga kaibigan ko lang, walang ano.

But at one time for the life of me because I really do not know how to operate that idiotic thing... Talagang hindi ko kaya. Itong mga security ko itong mga babae they are fond of telling me "we will teach you." They will teach me in the afternoon, the next day nalimutan ko na.

So one day gumanun-ganon ako... Sabi ko ano lumabas sa ganun group, accidentally sabi ni Bong Go you created a Viber group *[laughter]* tapos napindot ko, send all. *[laughter]*

Nahiya ako kasi wala na. Lahat nag-alsa balutan. No more. So since I am huli, holy na ako ngayon. *[laughter]* Eh nahuli na eh. Wala na.

So I let everything just continue maybe... 'Yan ang mahirap because the increase in oil is actually maybe to me, in my economics, very poor. But 'yung trade imbalance natin, we are spending more to buy things and imports are not doing very well.

But before I end ito na lang sabihin ko sa inyo, I know that you are the stakeholders here, in this country. And you have so many, you know, but one thing I will tell you and that is my advice, if we do not have law and order in this country and if we do not stop corruption, this country will never rise. *[applause]*

I don't know how but corruption might really be a good start. But you know you have a problem here. In Mindanao we have two revolutions. One is

driven by territoriality, 'yan sila Murad pati Nur Misuari. Ayaw nila 'yang giyera.

The other one is the revolutionary front of the extremist 'yung Abu Sayyaf. They are not interested in territory. They just want to kill and destroy. Wala silang pakialam niyang ano. They just want to kill. And they want to kill all infidels meaning non-Muslims.

Now kayong mga Muslims dito huwag kayong maano. I said my mama is a Maranao. So do not give me that s*** about being insulted because it is true. Why should we deny it?

'Yang dalawa na 'yan. Corruption, 'pag hindi nahinto ang corruption, wala talaga. Believe me. I went to so many places. We cannot even reach the level of Indonesia and Malaysia even if we are given five years, five extra miles. At the present level of where Indonesia and Malaysia and Brunei are now, hindi tayo makahabol.

But if we can have peace and all the earnings of government are due government and people are not deterred and foreigners... I'm advising foreign investors you have to tell me the truth. If you have something to complain especially about corruption, please talk to me and I will give you 100 percent satisfaction. *[applause]*

'Yan ang pangako ko sa inyo. And you will be protected. Kung magsumbong ka sa akin itong ganito then I will just tell him in front of you, better be sure that nothing happens to this guy. Maski napako lang ito doon sa hagdanan nila, magdasal ka kasi ikaw pupuntahan ko.

Now what will I do with you? You know there is an end to everything. I am old I can afford to go to jail. I'm 73. Eighty, I hate to be there kasi pagkatapos ko wala naman akong gawin.

What will I do? Hindi naman ako makalabas baka sagasaan ako ng mga p***** i** niya. Hindi naman ako... So when you are already there wala ka ng... Kaya there is always truism in the Bible of the Christians, which says Ecclesiastes 3: "A season for everything under the sun."

Time to be a shining star like me now you are looking at me. But I know that there will always be a time just around the corner, I will be a fading meteor. There's a time for plenty and a time for want, a time for festivities and a time to be sad. A time to rich and a time to be poor.

Wala naman tayong oil but if we struck oil... Pardon me, nag-landing kasi ako ng... Kaya 'yung allergy. I was using the helicopter. I just landed there just outside. So I said I was late because I was attending to so many concerns of government.

But I am do... I will do everything to really address the things that you have mentioned. I will place it in the agenda, first agenda during the next meeting. *[applause]*

And with that I'd like to thank the PCCI and everybody who's interested and for your patience for me to end the prob --- the talk. 'Yung ang problem ninyo eh, "P***** i**, Duterte ang tagal-tagal, I*****." *[laughter]*

I know 'yung sa inyo, pero 'yung sa front putting up a face, I think that you are enjoying. But you have to know me. Hindi ninyo ako kilala eh. Talagang...

If you look for a respectable statesman Ramos is --- President Ramos is a statesman. He's better than all the presidents including Estrada and the incumbent. *[laughter and applause]*

Salamat.
